Introduction

The objective of this survey is to provide a comprehensive list of all Multilateral Development Banks and national Development Finance Institutions operating in South Africa, the SADC region and selected African countries in the regions included under the DBSA’s coverage. Potential competitors and or, partners with whom the Bank could collaborate in pursuit of its objectives may be identified from this survey. This report was prepared for the International Financing Division as market intelligence. Each country overview gives a snapshot of the DFI to indicate the mandate fit of the institution in relation to the DBSA.

Method
Data for this survey was obtained from the official websites of the listed institutions. Some of these sources are dated therefore more research needs to be conducted to mine more current information.

Materiality
An effort has been made to focus attention on the DFIs in each country. The list includes large MDBs, regional DFIs and numerous smaller DFIs that operate in the national SME financing space. Members from the Association of African DFIs (AADFI) and the SADC Development Finance Network have been included.

Format of the survey
Each country section begins with an overview and assessment of the banking sector in that country that details the following information: (i) information on the institution and its strategy; (ii) sectoral focus; (iii) size of the loan book; and, (iv) existing relationship with the DBSA.

Comments
The DBSA should consider the following:

- Capitalize on existing relationships with the big MDBs but also build partnerships with the Turkish and Gulf multilateral institutions.
- Capitalize on existing relationships with the big regional banks but needs to consider national DFIs in the countries in which it does not have a large footprint.
- Build more sustainable relationships with emerging national DFIs and seek sustainable partnerships built on capacity building and knowledge sharing with the smaller banks looking to get into infrastructure financing.

Information currency
Information up to June 2017 was used.

Overview
KFW works with government national development plans. On behalf of the German Federal Government, and primarily the Federal Ministry for Economic Cooperation and Development, they check the feasibility and bankability of projects if they are the technical experts assisting the projects along the value chain. They have offices in almost 70 countries.

They work with LDCs and fragile states.

They work closely with European agencies, JICA, World Bank, UN, African Development Bank and emerging market development banks.

KfW supports the SDGs and 2030 Agenda for Sustainable Development

Overview
Provides infrastructure finance to local projects

The Government therefore re-designated TIB as a Development Finance Institution (DFI) in 2005. The bank has completed the process of transformation into a DFI with an engagement focus centred primarily on infrastructure, industrialization (agro-processing, mining, and general manufacturing) oil and gas and services sector.

The bank's loans are therefore directed to finance development of infrastructure such as:-
- Utilities and Communications: electricity generation and distribution, water treatment and distribution, oil and gas infrastructure,
- Telecommunications, and ICT.
- Transport: ports, airports including airport buildings, railway lines and attendant facilities.
- Transport Equipment: locomotives, marine vessels, aircraft and buses’ related equipment.

Botswana Savings Bank (BSB) is an indigenous institution wholly owned by the Government of Botswana with a specific mandate of mobilizing the nation to save as well as providing inclusive financial services. The Bank is operating under the Transition Act of 2011. In 2009 Government took a decision to merge Botswana Savings Bank, Botswana Post and Botswana Courier and both institutions are under a Holding Group (Botswana Postal Savings Group). Botswana Post enables BSB to provide its services through the postal network around the country.

The Bank is governed by an Independent Board of Directors which reports to the Group Board of Directors. Botswana Savings Bank is supervised by the Central Bank under the custodian ship of the Ministry of Transport and Communications. BSB is also required to carry out its business according to sound commercial principles and in accordance with the Banking Act of 1995. The Bank is a member of the World Savings Bank Institute, an association of Savings Banks represented in over 90 countries worldwide.

Citizen Entrepreneurial Development Agency (CEDA) | Botswana

| Contact details | Prime Plaza, Plot 54358, Corner PG Matante Road and Kharma Crescent Extension CBD, Gaborone +267 317 0895 feedback@ceda.co.bw |
| URL | www.ceda.co.bw |

**Overview**
The Citizen Entrepreneurial Development Agency (CEDA) was established by the Government of the Republic of Botswana to provide financial and technical support for business development with a view to promote viable and sustainable citizen owned business enterprises. CEDA was incorporated as a company limited by guarantee on the April 12th, 2001 and commenced operations in June 2001.

CEDA offers funding for capital expenditure, stock or working capital in new and existing business ventures. It also offers training and mentoring for new and seasoned entrepreneurs and business advisory services to entrepreneurs in various skills as identified through the needs assessment that is conducted during project monitoring.

| Sectors | Agriculture, property and manufacturing, services, structured finance, trade finance, training and mentoring |
| Loan book size | |

**Products and Services**
Loan finance, equity, lease loans, property loans, credit guarantee, factoring and invoice discounting, business advisory services

**Corporate & Investment Strategy**

The Agency is established to address the need for coherent and holistic support for the development of small, medium and large scale enterprises through the soft window and package offered through the subsidiaries. CEDA offers funding for capital expenditure, stock or working capital in new and existing business ventures. It also offers training and mentoring for new and seasoned entrepreneurs and business advisory services to entrepreneurs in various skills as identified through the needs assessment that is conducted during project monitoring.

SOFIDE's mission is to contribute technically and financially to the development of the Democratic Republic of the Congo by promoting the creation, extension or modernization of industrial, agricultural or other enterprises established in the Democratic Republic of the Congo, Private or mixed, whether domestic or foreign.

SOFIDE is the financial development company with a large state ownership stake with a mandate to promote the medium- and long-term financing of small and medium-sized Enterprises (SMEs). As part of its efforts to enhance SME financing in 2012, the government injected US$22 million in capital, and some additional US$40 million is expected in the near future. By end-September 2013, SOFIDE had funded about 63 SME projects for US$20 million with three-month to three and a half-year collateralized loans at 15 percent interest. Oversight mechanisms are weak and SOFIDE lacks of proper risk management controls; an independent review of its financial situation is needed. Some form of collaboration with the banking system to reinforce SME financing could also foster effectiveness.

Products and Services

- provide technical and financial assistance to the creation and development of all companies or companies;
- participate in various forms in the capital of such companies or undertakings and exercise any rights related thereto;
- grant medium- and long-term credits;
- endorse or act as surety for third parties;
- borrowing in any form. However, the Company refrains from receiving deposits of funds less than two years of term;
- carry out all operations consistent with the object of the Company, the foregoing enumeration being enunciative and non-limiting.

The Company may acquire, construct or lease all buildings useful for its regular operation and the achievement of its object.

Overview
Provides finance for economic development,

Swaziland Development & Savings Bank, known as SwaziBank, is a development finance institution. It was established in 1965 by the late King Sobhuza II in an effort to finance development projects, mainly smallholder farmers and low cost housing.

The Bank was mandated by its shareholder (The Government of Swaziland) to be a development bank and simultaneously a commercial entity. SwaziBank has become a major player in the financial sector and continues to generate profits despite the highly risky mandate it has to adhere to. The bank offers Bank Products (such as personal banking, home loans, agribusiness, business banking) and foreign exchange accounts.

The **DBM Ltd** took over the assets and liabilities of the Development Bank of Mauritius and started its operations as a public company on 1 January 1989.

The objects of the DBM Ltd, as set forth in Article 11 of Chapter 1 of the Memorandum of Association establishing the DBM Ltd, are as follows:

- To carry on the business of the Bank and to conduct, provide and operate banking services of all kinds.
- To promote or assist in the financing, management and establishment of projects which contribute to the economic development of Mauritius.
- To promote research into the economic development of Mauritius and the doing of all such things as are incidental or conducive to the above projects.
- The Development Bank of Mauritius Ltd has essentially an economic vocation, focusing on national policies by way of assisting the government in achieving the economic and social objectives set.

The operations of DBM Ltd involve primarily the provision of loan assistance and concession finance facilities to individuals or groups of persons for implementing projects or carrying out businesses against varied forms of guarantees for loan repayments.

Environment

Overview

The EIF has been established to:

- mobilise funding for the maintenance of an endowment fund that will generate income in perpetuity, and;
- allocate this income to activities and projects, which promote the sustainable use and efficient management of natural resources for the benefit of all Namibians.

The EIF invests in and supports projects and activities which promote the national development strategy of the Government of the Republic of Namibia but for which it is currently unable to provide the required financial investments.

- **Raise financial resources:** The fund is mandated to raise funds using both local and international mechanisms and sources. The State as sole shareholder has capitalised the fund with public funds at inception in 2012. The Fund's Business strategy however outlines options of sustainable financing to support the activities of the Fund.
- **Invest in environmental protection:** The Fund earmarks particular areas for investment; all strongly linked to environmental protection, natural resource management and sustainable industrial practices.

The EIF is building a sustainable fund that supports a variety of new and existing initiatives in the country. In doing so, we create partnerships with NGOs, Government, community – based organisations and the business community to ensure that our projects are well–positioned in the socio – economic and environmental tapestry of development, and to guarantee the buy–in of our local and international stakeholders.

**Overview**
The Botswana Investment and Trade Centre (BITC) is an organisation established by an act of Parliament, to become an integrated Investment and Trade Promotion Authority (ITPA) with an encompassing mandate of investment promotion and attraction, export promotion and development, including management of the nation’s brand. Through its critical role within Botswana’s economy, BITC further encourages domestic investment and expansion, promotes locally manufactured goods to regional and international markets, contributes towards improvement of the investment climate through policy advocacy, increases citizen participation in the economy and creates sustainable job opportunities.

The BITC has the following strategic leverage areas:

- building a competitive and attractive business environment
- national image building and global awareness creation
- focused, selective and targeted investment promotion
- sustainable export development and promotion
- national roll out of successful, positive impact special economic zones
- transforming into a 3rd generation ITPO
- effective stakeholder engagement and alignment
- effective investor facilitation and aftercare

**Overview**

BEDCO has treaded the journey of developing and promoting entrepreneurs, especially at the micro, small and medium levels. It therefore became a niche for the Corporation that it deals with MSMEs though its mandate which is explicitly spelt out in its founding document (BEDCO Act No.0 of 1980). Today, BEDCO is 35 years old. BEDCO has been a seedbed for entrepreneurial development and growth through a number of interventions such as capacity-building, business coaching, advisory and mentorship. The bulk of its interventions have been to capacitate entrepreneurs in order to acquire the skills and acumen required for them to start, operate and grow their businesses.

**Overview**

Mauritius Housing Company Ltd emanates from the former Mauritius Housing Corporation, a parastatal body set up in 1963. The latter had taken over the housing loan business from the Mauritius Agricultural Bank which had been providing such loans since 1951. The Mauritius Housing Company Ltd was incorporated in 1989, to be a total solution provider in respect of housing finance requirements and to better meet the challenges posed by the market. *Provides financing for housing development*

As the right arm of the Government, Mauritius Housing Company Ltd is proud to have enabled more than 100,000 families (Mauritians as well as Rodriguans) to become house owners.

### Overview
BNI is the first and only local Investment bank focused exclusively on the development of Mozambique.

Structured on a solid base, formed by key shareholders and a high caliber management team, BNI was founded to stimulate and participate in the financing of projects contributing to the sustainable development of Mozambique and of the economic marketplace.

BNI is a key partner not only for Mozambican companies and international investors but also for national and international institutions responsible for the provision and availability of financial instruments supporting development.

BNI has selected and structured its product offerings in order to streamline business sectors and provide a solid base of investments for their clients.

BNI also offers a range of advisory and counseling services typical of investment banks, fund management and of capital markets access that provide their clients with a broad and unique offer in Mozambique.

The National Development Corporation (NDC) is a leading industrial development and promotion organization established in 1962 as the Tanganyika Development Corporation (TDC) by an Act of Parliament to fill the gap in financing critical development projects and take over the colonial development corporation (CDC) formed in 1950. In 1965, the NDC was re-established by the government to catalyze economic development in all sectors of the economy. After the Arusha Declaration, another role was added to the NDC, namely that of a holding corporation under the Public Corporation Act 1969 that came to an end in 1992 under the Public Corporation Act, 1992 as amended. The NDC was given a broad mandate as a development and promotion institution to stimulate industrialization in partnership with the private sector.

The NDC implements strategic industrial development projects in partnership with private sectors.

Small Enterprise Promotion Agency (SEnPA)  Seychelles

**Contact details**
Albert Street, Seychelles  
+248 4323151

**URL**  
[http://www.senpaseychelles.com](http://www.senpaseychelles.com)

**Overview**
The Small Enterprise Promotion Agency (SEnPA) was established on 1st August 2004 following the closure of the Seychelles Industrial Development Corporation (SIDEC).

The newly created Agency which is a body corporate was given the mandate for implementation of government policy on craft and cottage industries in Seychelles.

Provides finance for SME development

The main goals or objectives of the Agency are to improve the small business environment in order to motivate and encourage entrepreneurship in start-up and existing small enterprises and providing structures for their development and growth. One key focus is to continually develop small enterprise marketing expertise in order to increase local, regional and international competitiveness. In addition to undertake research and development on a wide range of small business concerns in order to facilitate and encourage innovation and sustainable development.

The agency facilitates access to finance as well as providing support services to SMEs, before and after funding

**Overview**

The Agricultural Bank of Zimbabwe, in its present state, has evolved in various forms over the past 82 years. Its roots can be traced to 1924 when the Land and Agricultural Bank was founded to cater for the needs of commercial farmers of the day. In 1971 the Agriculture Finance Corporation (AFC) was conceived through an act of Parliament, which amalgamated the Land and Agricultural Bank and the Agricultural Assistance Board.

- Providing sustainable agricultural development finance and banking services to contribute towards the attainment of economic growth and development and prosperity in Zimbabwe.
- Contributing towards national agricultural development, food security, increased output and productivity and the generation of foreign currency, particularly for the farming and rural communities.
- Providing banking services to the unbanked rural and urban population that has no access to formal financial services.

Provides loans for agribusiness

Agribank is a registered commercial bank in terms of the Banking Act of Zimbabwe (Chapter 24:20) and is subject to the supervision of the Reserve Bank of Zimbabwe. The Bank is a Loan and Deposit taking Financial Institution.

### Overview

Established in 1940, it is a national development finance institution set up to promote economic growth and industrial development. It is owned by the South African government under the supervision of the Economic Development Department.

Provides finance for industrial and economic development in the public and private sectors by:

- Proactively identifying and funding high-impact and labour-intensive projects;
- Leading the creation of viable new industries;
- Using our diverse industry expertise to drive growth in priority sectors; and
- Taking up higher-risk funding projects.

During the 1990s, our mandate was expanded to include investment in the rest of Africa. The Mozal aluminium smelter in Mozambique was the first such venture. We secured investors from around the globe to establish a major industrial enterprise in a country plagued by decades of civil war. The smelter illustrated the viability of large projects on a continent often shunned by investors. Currently, our investments in Africa include mining, agriculture, manufacturing, tourism and telecommunications.

The IDC’s funding is generated through income from loan and equity investments and exits from mature investments, as well as borrowings from commercial banks, development finance institutions (DFIs) and other lenders.

### Corporate & Investment Strategy

As a key implementing agency of industrial policy, the IDC’s activities currently centre on the National Development Plan (NDP), the New Growth Path (NGP) and the Industrial Policy Action Plan (IPAP). It identifies sector development opportunities aligned with policy objectives and develops projects in partnership with stakeholders.

## Overview

The Land Bank is a specialist agricultural bank guided by a government mandate to provide financial services to the commercial farming sector and to agri-business and to make available new, appropriately designed financial products that would facilitate access to finance by new entrants to agriculture from historically disadvantaged backgrounds. Today, the Bank is a true South African development finance institution that serves all farmers equally.

The Land Bank is working to transform the agricultural sector in South Africa by providing sustainable financing to emerging farmers as well as facilitating partnerships with established commercial farmers for technical support and the transfer of skills.

The mission of Land Bank is:

- To develop and provide appropriate products for commercial and development clients.
- To leverage private sector investment into the agricultural sector. To develop partnerships with intermediaries on lending.
- To develop techniques for financing high-risk agriculture and new business areas.
- To support programmes of the Ministry of Land Affairs and Agriculture by aligning the Bank's products with these programmes.
- To contribute to rural development by linking up with government structures and activities.

The National Housing Finance Corporation (NHFC) is one of several Development Finance Institutions (DFIs) created by the South African Government to sustainably improve on the socio-economic challenges of the country. The developmental financial focus of the NHFC is specifically about finding workable models on affordable housing finance for the low- and middle-income target market.

The NHFC was established in 1996, by the then National Department of Housing (NDoH), to offer housing finance, project facilitation and technical assistance to private and public entities ensuring availability of housing stock for the target market. As a means of sustaining its funding programs, the NHFC searches for better ways to mobilise finance for affordable housing from sources outside the state in partnership with the broadest range of organisations.

The NHFC, in the affordable housing finance market sector, adopts a role of Financier, Facilitator and Innovator, to ensure viable housing finance solutions; growth of sustainable human settlements; and mobilization of relevant partnerships, through enhanced insights and knowledge gained.

</table>

**Corporate & Investment Strategy**

- Expand housing finance activities, through the effective provision of housing finance solutions, thus enabling low-to-middle income households to have choice of renting or owning or incrementally building, to meet their housing needs;
- Facilitate the increased and sustained lending by financial institutions to the affordable housing market;
- Mobilise funding into the human settlement space, on a sustainable basis, in partnership with the broadest range of institutions;
- Conduct the business activities of the NHFC in a manner that ensures the continued economic sustainability of the NHFC whilst promoting lasting social, ethical and environmental development; and
- Stimulate the low-to-middle income housing sector, by providing robust, relevant and timely research and market analysis to practitioners and housing customers.

Overview
Provides finance for SME and development
The NEF differentiates itself not only with a focused mandate for BB-BEE, but by also assuming a predominantly equity-based risk to maximise the Empowerment Dividend. Reward should balance the risk with the application of sound commercial decisions to support national priorities and government policy such as the Accelerated and Shared Growth Initiative for South Africa (AsgiSA) or targeted investments through the Department of Trade and Industry’s (the dti’s) Industrial Policy Framework (IPF).

The work of the NEF therefore straddles and complements other Development Finance Institutions (DFIs) by allowing the organisations to work in close collaboration in the promotion of BB-BEE. With them, the NEF can enhance other DFIs and their mandates by sharing its specialist sector expertise and knowledge of BB-BEE.

Sectors
SME and economic development

Loan book size
USD 550m

Products and Services
Investment funds, loans, venture capital, franchise funds

Corporate & Investment Strategy
The NEF implements its mandate in three ways:
1. Asset Management
By structuring accessible retail savings products for black people through its Asset Management Division, which is a custodian of certain equity allocations in State-Allocated Investments (SAIs), the NEF aims to foster a culture of savings and investment among its beneficiaries.

2. Fund Management
Fund Management, as a facilitator of the Codes of Good Practice of the Broad-Based Black Economic Empowerment Act (the Codes), supports the pillars of black enterprise by providing financial and non-financial solutions across a range of sectors to black empowered businesses, for start-up, expansion and equity transformation purposes.

3. Strategic Projects Fund
As a leader in venture capital finance which allows entrepreneurs to participate in projects that are at an early stage within sectors identified by the RSA government as key drivers to the economic growth of South Africa. The fund also provides project finance and private equity in these projects once they are regarded as bankable.

Overview

The National Savings and Credit Bank (NATSAVE) is a 100% Government owned Non-Bank Financial Institution that was established in 1972 by an Act of Parliament namely the National Savings and Credit Act, Chapter 423 of the Laws of Zambia. The bank began its operations in 1973. The Act gives the Bank the power to administer funds on behalf of any person or agency, accept deposits, operate saving schemes, the making of loans and to carry on any form of banking business.

The bank was created with a social mandate to deliver banking services to all parts of the country, especially the rural areas, at an affordable price.

### Overview
The East African Development Bank (EADB) was established in 1967 with the remit to provide financial and other support to its member countries, which currently are Kenya, Tanzania, Rwanda and Uganda while Burundi has applied to become a member state. It was re-established under its own charter in 1980 after the break-up of the East African Co-operation in 1977. The new charter opened up the Bank to a wider membership and allowed for the introduction of consulting and advisory services. The EADB’s mission is to promote sustainable socio-economic development in East Africa by providing development finance, support and advisory services.

### Sectors
More than 60% of its lending is to projects in health and education, hotels and tourism, construction and building, electricity and water, and agriculture.

### Loan book size

### Products and Services
The Bank also offers supplementary products such as asset leasing, equity financing, and short-term finance for working capital, trade finance and real estate development finance, loan guarantees, lines of credit, asset finance, and advisory services.

### Corporate & Investment Strategy
To promote sustainable socio-economic development in East Africa by providing development finance, support and advisory services.

### Overview

The Gold Coast Industrial Development Corporation (GCIDC) was established in 1952 with budgetary appropriations to enable it provide financial support to the indigenes for the establishment of their own businesses.

The Gold Coast Industrial Development Corporation (GCIDC), encouraged entrepreneurship among the indigenes in the areas of furniture making and baking. This intervention helped to develop the skills of the local carpenters and bakers in the use of mechanized saw mills and electric bakeries. In addition GCIDC also upgraded the skills of people who were using manual labour in washing to mechanised laundry since the Gold Coast intelligentsias had to send their suits to the United Kingdom to be laundered.

After independence, the GCIDC became known as the Ghana Industrial Corporation (GIDC) with the Government of Ghana as the controlling body. The government transformed the GIDC into the National Investment Bank (NIB) by an act of Parliament (Act 163). The NIB was incorporated as an autonomous joint state-private institution on March 22, 1963. It was established primarily to promote and strengthen rapid industrialization in all sectors of the Ghanaian economy. The NIB was therefore the first development bank in Ghana.

Currently, 70% of the Bank’s portfolio is made up of loans to the Ghanaian private sector. NIB is a major lender to the manufacturing, building and construction and agro processing sectors as well as the service industry.

It is also one of the designated financial institutions, which source funds from Export Trade, Agriculture and Industrial Development Fund (EDAIF) for on lending to exporters as Term and Working capital loans.

**Overview**

The Liberian Bank for Development and Investment was created by an Act of the National Legislature in 1961 under the joint initiative of major international financial institutions that purchased equity in the Bank. It commenced operations in 1965 as the Liberian Bank for Industrial Development and Investment. Under an amendment in 1974, the name was changed to the Liberian Bank for Development and Investment (LBDI). A further amendment in 1988 allowed the Bank to engage in commercial banking activities, to complement its development objectives.

**Products and Services**

Its Corporate Goals and Objectives are:

* Restore the capacity of LBDI to provide medium and long term loans for development oriented projects through the mobilization of domestic foreign resources.

* Assist in the revival of the key sectors of the economy to create jobs, reduce poverty, and encourage the efficient use of the country's human and natural resources.

* Ensure profitability and sustainable operations to achieve business growth, significant market share, and returns/value to all stakeholders (customers, staff and shareholders).

**Corporate & Investment Strategy**

- Facilitate the creation and expansion of small, medium, and large scale productive businesses such as Agro, Industrial and Service (including Tourism Enterprises)

- Provide increased goods and services for the rapidly growing consumption requirements of the economy.

**Geographic footprint:**

West Africa

**Relationship to DBSA**

The Bank of Industry Limited (BOI) is Nigeria’s oldest, largest and most successful development financing institution. It was reconstructed in 2001 out of the Nigerian Industrial Development Bank (NIDB) Limited, which was incorporated in 1964. The bank took off in 1964 with an authorized share capital of 2 million (GBP).

Following a successful institutional, operational and financial restructuring programme embarked upon in 2002, the bank has transformed into an efficient, focused and profitable institution that is well placed to effectively carry out its primary mandate of providing long term financing to the industrial sector of the Nigerian economy.

Providing financial assistance for the establishment of large, medium and small projects as well as the expansion, diversification and modernisation of existing enterprises as well as the rehabilitation of existing ones.

Sectors
Industrial sector

Banque Nationale pour le Developpement Economique (BNDE)  Senegal

Contact details  Av Lamine GUEYE x Place Soweto, Immeuble Rivonia – Dakar, Senegal
(+221)33 829 20 20  contact@bnde.sn

URL  www.bnde.sn

Overview
The ambition is to establish BNDE as a successful Bank in Senegal and as a true leader in financing SMEs, both qualitatively and quantitatively. It is also a matter of making BNDE a dynamic bank, with a role to progressively position itself on all banking activities (deposit bank, investment bank, asset and asset management ...) and on other Market segments (Corporate, Institutional, Diaspora, Microfinance Institutions, etc.). The objective is also to make the BNDE a national financing tool actively participating in the implementation of the Accelerated Growth Strategy of Senegal and more generally to the development of the country.

These ambitions are summed up in the BNDE’s mission of "helping to create and develop Senegalese companies, offering them diversified and adapted products and services, with particular attention to SMEs. Taking into account this mission and to guide the development dynamics of BNDE in the coming years, a VISION of 2018 has been formulated.

Sectors  Economic development, SME  Loan book size  11 billion CFA

Corporate & Investment Strategy
Our ambition will be to fight against poverty and social imbalance, which is why we have chosen to accompany the structures of the decentralized financial system, with a view to developing financial inclusion.

Products targeted at vulnerable targets will also be proposed by BNDE, which will be young people and women

Geographic footprint:  Senegal

Relationship to DBSA

Source:  www.bnde.sn
Overview

BRD has set a new course as a purely development focused national development bank. The new vision is to “accelerate broad based, sustainable economic transformation and prosperity creation” which makes this new mandate clear. To achieve this vision, BRD has articulated four strategic themes:

- **Focused Investments and Growth** – The bank will ensure that it makes investments that are aligned with this strategy and focus areas. And in order to make investments that are sustainable, BRD will ensure that such investments are profitable and facilitate its growth.

- **Building strong partnerships** — In order to achieve its development goals, BRD will use every opportunity to build strong and varied partnerships.

- **Maximize Development Impact** – At the center of everything that the bank will do is the idea that it must facilitate and generate development impact in Rwanda and the region. BRD ensures that this strategic objective is embedded in all its interventions.

- **Increased resource mobilization** — In line with the expectations around its development mandate, BRD will mobilize more resources to fund this ambitious strategy. The bank’s financial resources will always be a small fraction of the financing needs of Rwanda’s transformation. The bank will explore options for attracting more investments from new funders and donors, including DFIs, pension funds, impact investors.

### Development Bank of Ethiopia

| Contact details | PO Box 1900, Addis Ababa, Ethiopia  
+251 115 51 11 88/98  
[dbo@ethionet.et](mailto:dbo@ethionet.et) |

### Overview

The Development Bank of Ethiopia (DBE) is one of the financial institutions engaged in providing short, medium and long term development credits. The DBE’s distinguishing feature is its "project" based lending tradition. Projects financed by the Bank are carefully selected and prepared through appraisal, closely supervised and systematically evaluated.

Since its establishment in 1909, the bank has been playing a significant role in promoting the overall economic development of the country.

Nationally, the DBE is the sole Bank with reputable experience in long term investment financing. Internationally it is recognized as an important on-lending channel for development programs financed by bilateral and/or multilateral sources.

| Sectors | SME finance, commercial agriculture, agro-processing, manufacturing and extractive industries, preferably export focused. |
| Loan book size | |

**Overview**

The introduction of Eximguaranty Company (Ghana) Ltd. (Exim) onto the Ghanaian financial services market was meant to facilitate the building of linkages between Small and Medium Enterprises (SMEs) and the formal financial institutions.

Eximguaranty Company (Ghana) Limited has been positioned over the years to support short, medium and long term credit requests to Banks from mainly viable and well-structured small and medium enterprises. This intermediation capability has a positive impact on general business growth in the country, since it increases the credit portfolio of Banks for the benefit of SMEs.

Recent Partnerships created with both local Banks and some other Non-Banking Financial institutions has created deep awareness of the relevance of the Credit Underwriting business. It works with Banks, contractors and other technical service providers. The business sectors covered by their business are in the areas of Manufacturing, Exporting, Agricultural Processing, Construction and other Service Industries.

Overview

The Nigerian Export-Import Bank (NEXIM) was established by Act 38 of 1991 as an Export Credit Agency (ECA) with a share capital of N50,000,000,000 (Fifty Billion Naira) held equally by the Federal Ministry of Finance Incorporated and the Central Bank of Nigeria. The Bank which replaced the Nigerian Export Credit Guarantee & Insurance Corporation earlier set up under Act 15 of 1988, has the following main statutory functions:

• Provision of export credit guarantee and export credit insurance facilities to its clients.
• Provision of credit in local currency to its clients in support of exports.
• Establishment and management of funds connected with exports.
• Maintenance of a foreign exchange revolving fund for lending to exporters who need to import foreign inputs to facilitate export production.
• Provision of domestic credit insurance where such a facility is likely to assist exports.
• Maintenance of a trade information system in support of export business.

The Bank presently provides short and medium term loans to Nigerian exporters. It also provides short term guarantees for loans granted by Nigerian Banks to exporters as well as credit insurance against political and commercial risks in the event of non-payment by foreign buyers. The Bank is also the government’s National Guarantor under the ECOWAS Inter-state Road Transit programme.

Products and Services
Direct lending facility, export guarantee facility, export credit insurance facility

Corporate & Investment Strategy

NEXIM lends money directly to Nigerian exporters to fund their purchase of capital goods, raw materials, packaging materials, spare parts through the Direct Loans facility. The facility also covers the provision of infrastructure as well as revitalization and modernization of plants/machinery. Providers of export services in the areas of consultancy, tourism, oil and gas, etc. are also eligible for support.

### Overview

The Agricultural Finance Corporation (AFC), a wholly owned Government Development Finance Institution (DFI), was established in 1963 initially as a subsidiary of the Land and Agricultural Bank. In 1969, it was incorporated as a full–fledged financial institution under the Agricultural Finance Corporation Act, Cap 323 of the laws of Kenya. It was then tasked with assisting in the effective and peaceful transfer of land to indigenous farmers, as well as injecting new capital to farm owners to spur development. After successful implementation of this task, the AFC was further reconstituted in 1969 to assume a wider mandate by taking over the functions of the Land and Agricultural Bank of Kenya.

Today it remains the leading Government Credit institution mandated to provide credit for the sole purpose of developing agriculture. This role is crucial given that Agriculture is the mainstay of the Kenyan economy where 80% of the rurally based Kenyan population relies on agriculture as their main support system.
