Annex F :
SBD 9 – CERTIFICATE OF INDEPENDENT BID DETERMINATION

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.

- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.

- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution’s supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price Proposals, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

- (i) The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.

37. I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No 12 of 2004 or any other applicable legislation.

Additionally, the growth in IDD's workload necessitates that the division has access to a resource panel from where recruitment of non-permanent or ad hoc resources can be rapidly procured deployed to areas of need.

C3.1.2. SCOPE OF WORKS

IDD seeks to enter into Framework Agreements with service providers that can provide resources on an as-and-when-needed basis and for various durations. The procurement of service providers will be achieved through an open tender process. Service Providers will bid a rate per hour for the various types of resources required. Individual CVs will then be evaluated when resources are requested on a Task Order basis, within the fixed rate that would have been agreed to in the Framework Agreements.

Resources will be based at the offices of client departments and be deployed as required on a routine and task order basis and will individually and collectively provide targeted professional, technical, systems and administrative support to infrastructure work being executed by the relevant department. Resources will further address the department's need to comply with requirements of National Treasury's Framework for Infrastructure Delivery and Procurement Management (FIDPM) and support governance and oversight functions required to execute infrastructure projects and programmes in an objective and consistent manner.

It is planned for the proposed resources to support the following processes required for delivery of infrastructure:

- Implementation of standard and best practices in line with the National Standards and the FIDPM; CIDB IDMS and other applicable regulatory and industry standards of practice.
- Alignment and planning of infrastructure interventions to deliver on departmental mandates.
- Provision of technical support and expertise to client department/s.
- Delivery of projects with predictable consistency, efficiency and success.
- Provision of up-to-date and accurate status and financial reporting to executive leadership.
- Improvement in technical oversight, general integration and stakeholder satisfaction.
- Undertake role-applicable assignments as directed by the client.
- Maintain record of time spent for claiming of payments.

The contracting period will be based on a client's needs and will be subject to extension, reduction or termination based on the client requirements.
