Bidders that do not score **70** points or higher at this stage of the evaluation will not be evaluated during the second stage of the evaluation.

26.5 Third Stage: Price and Preferential Points Assessment

26.5.1 Subsequent to the evaluation of Qualifying Criteria and functional criteria, the third stage of evaluation of the Bids will be in respect of price and preferential procurement only. Points will be allocated to Bidders at this stage of the evaluation in accordance with the PPPFA and the PPPFA Regulations, as follows:

Price points 80

Preferential procurement points 20

26.5.2 **Price points**

The following formula will be used to calculate the points for price:

$$P_s = 80(1 - (P_t - P_{min}) / P_{min})$$

Where:

P_s = Points scored for comparative price of tender or offer under consideration;

P_t = Comparative price of tender or offer under consideration;

and

P_{min} = Comparative price of lowest acceptable tender or offer.

26.5.3 Preferential procurement points

A maximum of 20 points may be awarded in respect of preferential procurement, which points must be awarded to a tenderer for attaining their B-BBEE Status Level in accordance with the table below:

6	6
7	4
8	2
Non-compliant contributor	0

An unincorporated trust, consortium or joint venture will qualify for points for their B-BBEE status level as an unincorporated entity, provided that the entity submits their consolidated B-BBEE scorecard as if they were a group structure and that such a consolidated B-BBEE scorecard is prepared for every separate Bid.

26.5.4 Total

The total points scored by each Bidder will be calculated by adding the points scored for price (out of 80) to the points scored for preferential procurement (out of 20).

The successful Bidder will be the Bidder which has the highest total points (out of 100) for both price and preferential procurement (unless there is a basis for selecting a different successful Bidder in accordance with section 2(1)(f) of the PPPFA).

Provision of Technical Assistance for the Independent Evaluation of Metropolitan Plans and Reports for the 2020/21 – 2022/23 MTREF, Cities Support Programme, National Treasury**1. Introduction****1.1 Background to the Cities Support Programme**

South African cities continue to face significant development challenges, despite the progress in expanding access to basic services. There are highly and visibly inequitable environments that exclude poor people from social and economic participation:

- a) The current pace of urban population growth is outstripping economic growth.
- b) Apartheid patterns of spatial segregation and exclusion persist, with poor people located in peripheral areas far from social and economic opportunities.
- c) Public transport, land and housing delivery systems are failing urban residents and
- d) These inequalities will be exacerbated by climate change

The ability of cities to respond to these challenges are exacerbated by the macro economic constraints to growth which impacts on cities. The underlying imperative of the Cities Support Programme (CSP) is therefore to improve economic growth prospects in cities to help respond to the development challenges they face.

One area of support that the CSP provides to metros is planning reform. This is within a broader urban reform agenda that focuses on planning, budgeting and reporting reforms that have used the Built Environment Performance Plans (BEPPs) as the instrument for reform. BEPPs were first introduced in the 2011/12 DORA as an instrument of the Urban Settlements Development Grant (USDG), a grant administered by the department of Human Settlements. In 2014/15 the BEPP ceased to be an instrument of the USDG and became the instrument of the Integrated City Development Grant (ICDG) managed by the National Treasury, in relation to the range of metropolitan built environment grants: Urban Settlements Development Grant, Human Settlements Development Grant, Public Transport Infrastructure Grant, Neighbourhood Development Partnership Grant, and Integrated National Electrification Programme Grant as regulated by the Division of Revenue Act annually. For the last five years (BEPPs) have been used to reform planning in metropolitan municipalities, a process managed by National Treasury.

The requirement for all metropolitan municipalities to improve the quality of their existing BEPPs is a cornerstone of the support provided by national government to drive the identification, preparation, implementation and management of the programmes and projects necessary to achieve these objectives. To date, the BEPP has supported municipalities to clarify their spatial and development planning theories of change and assisted them to initiate practical programming and preparation of investment programmes and regulatory reforms to progressively and measurably realise this vision. The BEPP has been accompanied by the development of a range of toolkits and technical assistance initiatives, alongside fiscal and regulatory reforms intended to ease constraints to programme and project preparation and implementation.

As the BEPP process evolves, greater emphasis is thus placed on the institutional and financial arrangements necessary for accelerated programme implementation and urban management. In June 2018 the Planning Reforms Seminar recommended that the

Integrated Development Plan (IDP) and the Spatial Development Framework (SDF) be strengthened with lessons learnt from the planning, budgeting and reporting reforms and BEPPs. The reformed planning, budgeting and reporting approaches adopted in the BEPP process have been documented ... [Planning Reforms](#)

1.1 Request for Assistance

This assignment will provide the CSP and the Urban Reforms Assessment Team (URAT comprised of officials from the Departments of Planning, Monitoring & Evaluation, Co-operative Governance, National Treasury and Agriculture, Rural Development and Land Refrom) with technical assistance for the Independent Assessment of metropolitan plans and reports for a period of three years. The Technical Team will assess/evaluate the following metropolitan plans and reports:

- a) The Tabled and Approved BEPPs for the 2020/21 MTREF for six metropolitan municipalities (excludes Cape Town and Johannesburg);
- b) The Tabled and Approved IDP, SDF, SDBIP, GDS/CDS, and Infrastructure Plans of all eight metropolitan municipalities for the 2020/21; 2021/22 and 2022/23 MTREFs; and
- c) Any Tabled or Approved Plans or Reports other than those mentioned above that the CSP or URAT may request.

It is anticipated that the technical service will be provided by a team of professional consultants who should have the following expertise: Extensive and current knowledge and experience of urban development, particularly with respect to transit oriented development; economic development; human settlements; public transport; governance; spatial planning; programme preparation and resourcing; municipal finance; urban management; and finally monitoring and reporting. The team should clearly comprise of a lead service provider / technical lead with several individual professional experts, with the necessary qualifications, experience, skills and expertise required.

The technical assistants / consultants will work with the Project Manager for Planning Reforms and the BEPPs, who will facilitate work with the CSP Team, URAT and any other relevant stakeholder or roleplayers. Given the timeframes for the assessments that require a lot of work over relatively short periods of time over a three-year period, it is envisaged that the Technical Team will comprise of a range of expert professional consultants led by a lead service provider / technical lead. Individuals meeting a specific competency as outlined may apply if they form part of a consortium. Alternatively, a company may apply providing the CV's of relevant employees and augment their staff complement for the project with associates who would work on the project.

The independent assessment will be compared to the assessment of the BEPPs and range of metropolitan plans by the National Treasury Team (CSP and relevant officials in National Treasury) as well as the URAT, and then be provided to the cities. The assessment is less about compliance or the score that is attained by the city, and more about identifying good practice and providing support to improve the quality of BEPPs and other plans and reports. It is even more so about ensuring a direct link between spatial outcome statements and measurement; planning, budgeting and reporting.

1.2 Main Activities and Timeframes

The main activities that are required to be undertaken in terms of the independent assessment of the BEPPs and other plan and reports for the 2020/21 – 2022/23 MTREFs are aligned to the annual planning, budgeting and reporting process in Annexure 1 and as outlined below:

For the 2020/21 MTREF

- a) Assessment of the entire BEPP for each of the 6 metropolitan municipalities (Cape Town and Johannesburg have been exempted from submitting BEPPs) using the Progression Model developed by the CSP for the 2020/21 MTREF
- b) Assessment of the BEPPs in terms of the 5 components and corresponding thematic areas of focus of the CSP: Core Governance (Planning reforms including outcomes-led planning, strategy-led budgeting, intergovernmental planning and budgeting; reporting reforms – built environment indicators and pipeline of catalytic land development programmes); Human Settlements (city-wide informal settlements upgrading); Public Transport; Climate Resilience and Economic Development
- c) Assessment of the extent to which the approach and content of the planning reform and BEPPs appears in key metropolitan plans such as the SDF, IDP and GDS/CDS for the 8 metropolitan municipalities in terms of the assessment criteria set by the URAT in 2019 – see Annexure 2.

For the 2021/22 and 2022/23 MTREFs

- a) Assessment of the extent to which the approach and content of the planning reform and BEPPs appears in key metropolitan plans such as the SDF, IDP and GDS/CDS for the 8 metropolitan municipalities in terms of the assessment criteria set by the URAT in 2019.

The assessments apply to the Tabled (submitted 31 March annually) and Council Approved BEPPs and other plans and reports (submitted 31 May annually), and the timeframes for the assessments are thus as follows: -

All assessments are to be completed by the due dates for the interim and final deliverables in the Table above. The final deliverable will be the assessment reports and related presentations per metropolitan municipality and one consolidated final summary report covering the 8 metropolitan municipalities.

There will be no travel required of the Technical Team for assessments of the Tabled plan and reports. However the Technical Team (only one member of the team per metro) will be required to travel to the metros to present and discuss the assessments of the Council Approved plans and reports.

The Annual Evaluation of the BEPPs and other plans and reports, which is the culmination of the assessment process with all intergovernmental stakeholders, is scheduled for the following dates:-

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
