However, a late Bid may be accepted where the Bidder can clearly demonstrate (to the satisfaction of the DBSA, in its sole discretion) that late lodgement of the Bid was caused by the DBSA; that access was denied or hindered in relation to the physical tender box; or that a major/critical incident hindered the delivery of the Bid and, in all cases, that the integrity of the Tendering Process will not be compromised by accepting a Bid after the Closing Time.

18.3 The determination of the DBSA as to the actual time that a Bid is lodged is final. Subject to clause 18.2, all Bids lodged after the Closing Time will be recorded by the DBSA and will only be opened for the purposes of identifying a business name and address of the Bidder. The DBSA will inform a Bidder whose Bid was lodged after the Closing Time of its ineligibility for consideration. The general operating practice is for the late Bid to be returned within 5 (five) working days of receipt or within 5 (five) working days after determination not to accept a late Bid.

19. BIDDER’S RESPONSIBILITIES

The submission of such certificates must comply with the requirements of instructions and guidelines issued by National Treasury and be in accordance with the applicable notices published by the Department of Trade and Industry in the Government Gazette.

19.4 The DBSA reserves the right to require of a Bidder, either before a Bid is adjudicated or at any time subsequently, to substantiate any claim in regard to preferences, in any manner required by the DBSA.

20.4 Where the Bidder is unwilling to accept a specified condition, the non-acceptance must be clearly and expressly stated. Prominence must be given to the statement detailing the non-acceptance. It is not sufficient that the statement appears only as part of an attachment to the Bid, or be included in a general statement of the Bidders usual operating conditions.

20.5 An incomplete Bid may be disqualified or assessed solely on the information completed or received with the Bid.

21. **ILLEGIBLE CONTENT, ALTERATION AND ERASURES**

21.1 Incomplete Bids may be disqualified or evaluated solely on information contained in the Bid.

21.2 The DBSA may disregard any content in a Tender that is illegible and will be under no obligation whatsoever to seek clarification from the Bidder.

21.3 The DBSA may permit a Bidder to correct an unintentional error in its Bid where that error becomes known or apparent after the Closing Time, but in no event will any correction be permitted if the DBSA reasonably considers that the correction would materially alter the substance of the Bid or effect the fairness of the Tendering Process.

22. **OBLIGATION TO NOTIFY ERRORS**

27.5 A minimum of **70 points out of a 100** for the functional evaluation will qualify the Bid to move on to the second stage of evaluation, which is price and preferential point’s evaluation. Bidders that do not score 70 points or higher at this stage of the evaluation will not be evaluated during the second stage of the evaluation.
27.6 **Third Stage: Price and Preferential Points Assessment**

Price points 80  
Preferential procurement points 20

27.6.2 **Price points**  
The following formula will be used to calculate the points for price:

\[ Ps = 80 \times (1 - \frac{Pt - P_{min}}{P_{min}}) \]

Where:
- \( Ps \) = Points scored for comparative price of tender or offer under consideration;  
- \( Pt \) = Comparative price of tender or offer under consideration; and  
- \( P_{min} \) = Comparative price of lowest acceptable tender or offer.

27.6.3 **Preferential procurement points**

their consolidated B-BBEE scorecard as if they were a group structure and that such a consolidated B-BBEE scorecard is prepared for every separate Bid.

27.6.4 Total
The total points scored by each Bidder will be calculated by adding the points scored for price (out of 80) to the points scored for preferential procurement (out of 20). The successful Bidder will be the Bidder which has the highest total points (out of 100) for both price and preferential procurement (unless there is a basis for selecting a different successful Bidder in accordance with section 2(1)(f) of the PPPFA).

In 2018, the President announced the establishment of a new SA Infrastructure Fund in the Presidency, as part of the economic stimulus and recovery package. The Infrastructure Fund is expected to bring private sector, Development Finance Institutions, and other development partners to work with government in addressing infrastructure development. The Minister of Cooperative Governance and Traditional Affairs ("COGTA") subsequently engaged prospective investors in the private sector, and one of the critical steps forward was the agreement to assemble a team of experts to review best practice locally and internationally, to advise the Minister, and to propose the optimal role and model that government could adopt in order to crowd-in private investments in municipal infrastructure. Together with the Minister of Water and Sanitation, it was later agreed that the water and sanitation sector will be prioritised considering the glaring challenges in the sector and the potential positive impact on communities.

The Private Sector Participation (“PSP”) Model was conceptualised and initiated prior to the President’s call, by the National Business Initiative ("NBI"), the Black Business Council ("BBC"), the Association for Savings and Investment South Africa ("ASISA") and the Development Bank of Southern Africa ("DBSA"). The PSP Model has been significantly refined by the Technical Task Team comprising both Government and Private Sector representatives (COGTA, MISA, DWS, NT, SALGA, DBSA, BBC, ASISA, BASA).

The PSP Model is based on the following approach:

- Involvement of the private sector:
  - Implementation – Design & Construction, as well as Operations & Maintenance Support by the private sector to municipalities on a long-term contract basis
  - Financing – crowding in of private sector funding on a blended finance basis
- Discounting of future government grant funding to ensure infrastructure is properly constructed, operated and maintained to ensure effective and sustainable service delivery

2. Objectives of the assignment

The design of the PSP Model is well advanced, and the DBSA wishes to appoint a professional service provider to design a detailed financial model that will be used as the tool to determine the use of the PSP Model in different projects and municipalities.

3. Scope of work
The scope of work includes the following:

1. The DBSA wishes to engage the services of a professional service provider /consultant to assist the DBSA in building a dynamic and detailed financial model based on best practice modelling standards which will allow the DBSA to consider the financing of municipal infrastructure projects through the PSP Model

2. The financial model and assignment include the following:
   a. Using historic conditional and unconditional grants (such as MIG, RBIG, USDG, IUDG, etc.) as base data, predict/forecast each grant over a 10- or 15-year period. Current MTEF allocations should be used to improve forecasting. Such forecast / prediction should include statistical and sophisticated risk modelling capability and use the required software to enable such modelling
   b. Modelling of the capital expenditure requirements of a specific project(s), incl. capex repayments, interest repayments, fees, provision for preventative and reactive maintenance activities post commission, etc.
   c. Modelling the annual/monthly operational expenditure requirements of a specific project(s) over the contract period (5, 10 or 15 years)
   d. Conditional grants to be used to cover the capex and fees portions
   e. Unconditional grants to be used to cover the O&M and interest portions
   f. The financial model must lend itself to scenario testing of conditional grants used (say 20%, 40%, 60%) to determine the value of a project that can be supported through the PSP Model. The portion of the unconditional grant required will be determined for each scenario
   g. The financial model must be able to determine the portion of conditional and unconditional grants required to support a given project i.e. capex and opex requirements provided as input
   h. The financial model should include functionality to allow a municipality to contribute own sources of revenue to cover certain portions of the costs, for example the interest portion i.e. flexibility to allow a municipality to cover the interest portion from own source of revenue instead of using a portion of the equitable share
   i. Discounted Cash Flow (DCF) analysis principles presented in terms of project Net Present Value (NPV), Internal Rate of Return (IRR) and or any other relevant financial indicator
   j. Overall blended funding ratio in terms of external funding and grant funding over the contract period
k. Ability to model and present results according to the water and sanitation components of the different conditional and unconditional grants, as well as the portions of grants used according to the total conditional and unconditional grants

l. Report on all assumptions made

m. Sensitivity analysis

n. Allow for the various input parameters

o. Present results in a graphic and or tabular format as relevant

3. Other considerations:

a. The PSP Model will initially be applied to water and sanitation projects, but will later be extended to include other municipal infrastructure sectors such as roads and transport, electricity, etc.

b. The financial model should be Microsoft Excel based and will become the property of the DBSA

c. Any advanced and specialised risk modelling software (stochastic risk modelling making use of Monte Carlo simulations) must be included in the deliverables

d. Training of DBSA staff in the use of the model to ensure DBSA can independently use the model on future projects

e. The model developed and used by the DBSA to date will be made available to the successful service provider to be used as an example of what will be required as deliverable under this assignment

4. Deliverables

Deliverables to include a financial model (in MS Excel incl risk modelling capabilities and reporting formats) that can be used by the DBSA to model projects to be funded through the PSP Model. The financial model will become the Intellectual Property of and for exclusive use by the DBSA.

5. Duration of assignment

Upon successful appointment, the professional service provider shall be expected to immediately commence work as per the instructions set out in these terms of reference. It is expected that the tasks associated with this assignment should be completed within a period of 10 weeks.

6. Required experience, skill and expertise

Required experience, skill and expertise include the following:

1. **Assignment / team leader** with a minimum of 10 years relevant experience in financial modelling as well as a demonstrated knowledge of public sector and municipal finance

2. Financial and risk modelling:
a. A **financial modelling expert** with a minimum of 10 years relevant experience in financial- and risk modelling. Modelling experience should include risk modelling such as Monte Carlo simulations

b. A **support team** for the financial and risk modelling exercise

The skills required from each of the specialists listed above should include:

a. Degree level qualification in the relevant discipline

b. Professional registration where applicable (proof of registration to be provided)

c. Demonstrable experience on projects / assignments similar to the scope of work of this assignment.

A minimum threshold for functionality of 70 (seventy) points is required. Bids that do not meet this threshold will automatically be disqualified for further evaluation. Thereafter, only the qualifying bids will be evaluated in terms of the 80/20 preference point system, where a maximum of 80 points are allocated for price and a maximum of 20 points are allocated in respect of the level of B-BBEE contribution of the bidder.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.

2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a pe se prohibition meaning that it cannot be justified under any grounds.

3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:

   a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution’s supply chain management system and or committed fraud or any other improper conduct in relation to such system.

   b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
