26.4.2 A minimum of **70 points out of a 100** for the functional/ evaluation will qualify the Bid to move on to the second stage of evaluation, which is price and preferential points evaluation. Bidders that do not score **70** points or higher at this stage of the evaluation will not be evaluated during the second stage of the evaluation.

26.5 **Third Stage: Price and Preferential Points Assessment**

26.5.1 Subsequent to the evaluation of Qualifying Criteria and functional criteria, the third stage of evaluation of the Bids will be in respect of price and preferential procurement only. Points will be allocated to Bidders at this stage of the evaluation in accordance with the PPPFA and the PPPFA Regulations, as follows:

Price points 80

Preferential procurement points 20

26.5.2 **Price points**

The following formula will be used to calculate the points for price:

$$P_s = 80(1-(P_t-P_{min})/P_{min})$$

Where:

P_s = Points scored for comparative price of tender or offer under consideration;

Pt = Comparative price of tender or offer under consideration; and

Pmin = Comparative price of lowest acceptable tender or offer.

26.5.3 Preferential procurement points

A maximum of 20 points may be awarded in respect of preferential procurement, which points must be awarded to a tenderer for attaining their B-BBEE Status Level in accordance with the table below:

1	20
2	18
3	14
4	12
5	8
6	6
7	4
8	2
Non-compliant contributor	0

An unincorporated trust, consortium or joint venture will qualify for points for their B-BBEE status level as an unincorporated entity, provided that the entity submits their consolidated B-BBEE scorecard as if they were a group structure and that such a consolidated B-BBEE scorecard is prepared for every separate Bid.

26.5.4 Total

The total points scored by each Bidder will be calculated by adding the points scored for price (out of 80) to the points scored for preferential procurement (out of 20).

The successful Bidder will be the Bidder which has the highest total points (out of 100) for both price and preferential procurement (unless there is a basis for selecting a different successful Bidder in accordance with section 2(1)(f) of the PPPFA).

PART D: TERMS OF REFERENCE & PROJECT BRIEF

TERMS OF REFERENCE MANAGEMENT AND COORDINATION SUPPORT ON THE CITIES INFRASTRUCTURE DELIVERY AND MANAGEMENT SYSTEM (CIDMS) PROJECT

1. INTRODUCTION

1.1. Background to the CSP

South African cities continue to face significant development challenges, despite the progress in expanding access to basic services. There are highly and visibly inequitable environments that exclude poor people from social and economic participation. The importance of reversing the economic and socially exclusionary nature of our cities is embedded in the Constitution.

The ongoing process of urbanisation provides a key opportunity to reshape South African cities. Seizing this opportunity requires us to re-imagine our cities, and to take a series of methodical, measurable steps to build more productive, inclusive, sustainable and well-governed urban environments.

The CSP supports South Africa's eight metropolitan areas to contribute more effectively towards economic growth and a reduction in poverty and inequality. Key to achieving this goal is incentivising the spatial transformation of South Africa's cities towards greater productivity, inclusivity and sustainability. This requires interventions at two levels. Nationally, the CSP seeks to align fiscal, regulatory and other support mechanisms and to create an enabling environment for city transformation. Across South Africa's eight metros, the CSP supports stakeholders to implement a programme that strengthens city governance, incentivizes spatial transformation, and improves city inclusivity, productivity and sustainability.

The CSP has five distinct but aligned components of work, namely Core City Governance Support, Human Settlement Support, Public Transport Support, Climate Resilience and Sustainability Support, and Economic Development Support.

1.2. Background to this Terms of Reference

The Cities Support programme has been developed to assist South African cities to enhance the management of their built environment. In pursuing the the objective to support the spatial transformation of cities to create more inclusive, productive and sustainable urban built environments special focus has been placed on enhancing infrastructure delivery. This has been identified as one area where cities could be assisted to benchmark and continuously improve their delivery systems

The importance of infrastructure investment has been highlighted by government and national government has allocated significant resources towards infrastructure investment, over the MTEF period. However, notwithstanding the extensive capital budgets that are approved by municipalities, many municipalities neither spend their capital budgets on time nor achieve the developmental goals

they set themselves. A key driver of poor spending performance has been weak portfolio and project management systems.

Through the Cities Support Programme and in collaboration with the three pilot municipalities, i.e. City of Johannesburg, eThekweni Municipality, and City of Cape Town, the Cities Infrastructure Delivery and Management System (CIDMS) was developed and launched nationally in 2018. The launch followed the completion of the CIDMS toolkit comprising, modules, guidelines and tools. CIDMS implementation strategies for each of the pilot cities were also drafted following a rigorous readiness assessments and numerous engagements with city representatives in the asset management space.

Through the Cities Support Programme technical support will be provided to the metropolitan municipalities in implementing the CIDMS with a focus on asset management. In addition to the technical support, a CIDMS community of practice and peer to peer learning, as well as a capacity building intervention together with curriculum development will be rolled out.

1.3. Request for Assistance

To enable the implementation support, to the cities, the CSP seeks to appoint a service provider to support the coordination and management of the CIDMS project. The scope of work will entail:

- a) Engagement with and mobilisation of the cities into the project;
- b) Coordination of the various technical support interventions to be provided through the technical team appointed through the World Bank and the metros;
- c) Provide quality assurance on the technical materials, documents, and support
- d) Ensuring alignment of the CIDMS support with other projects in the CSP as well as other infrastructure initiatives implemented through the IGR division of National Treasury;
- e) Supporting the capacity building interventions (CIDMS curriculum development and training), as well the establishment and coordination of the CIDMS Community of Practise; and
- f) Monitor CIDMS implementation progress through tracking and monthly reporting.

1.4. Anticipated Level of Effort

The appointment period will be for twenty-six months. It is estimated that there will be 10 working days per month allocated to the contract. Service providers will be expected to work closely with the Component Lead throughout this time.

1.6. Related Programmes / Initiatives

This project arises from CSP theory of change, in which sustainability and climate resilience emerged as a transversal outcome that supports the economic performance of cities. This project forms part of the Climate Resilience Component Plan and provides a foundational basis to identify priorities that will be taken forward through other projects in the Climate Resilience Component.

A related initiative is the 100 Resilient Cities programme pioneered by the Rockefeller Foundation. Two of South Africa’s cities, Durban and Cape Town, are participant cities.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ **Includes price quotations, advertised competitive bids, limited bids and proposals.**

² **Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.**
