PART E

TERMS OF REFERENCE & PROJECT BRIEF

1. INTRODUCTION

The Department of Mineral Resources and Energy (DMRE), National Treasury (NT) and the Development Bank of Southern Africa (DBSA) established the IPP Office for the specific purpose of delivering on the Independent Power Producers Procurement Programme (IPPPP) and related interventions and mandates of the DMRE.

As part of the DBSA's ongoing support to the DMRE in terms of the Memorandum of Agreement (MoA), the DBSA is requested to assist the IPP Office (IPPO) with the appointment of a service provider to provide, implement, support and maintain a hyper-converged infrastructure solution for the IPP Office over a period of five (5) years.

2. PURPOSE

The intent of this Request for Proposal (RFP) is to appoint a suitable service provider to supply, install and configure the new ICT Infrastructure required by the IPPO, as well as migrate the current servers, systems, applications and data from the current ICT infrastructure, incorporating best practice in terms of security and functionality.

3. BACKGROUND

The IPPO currently has HPE servers and a Dell EMC storage solution that have reached the end of its life. The current solution consists of 4 physical servers, which is also hosting some virtual servers.

The current state of the IPPO infrastructure provides the ICT team with the ideal opportunity to re-engineer the ICT Infrastructure environment to better support the operational requirements of the IPPO.

The goal is to find a highly secured, hyper-converged infrastructure solution to completely replace the current solution and to migrate the entire ICT environment keeping the following principles in mind:

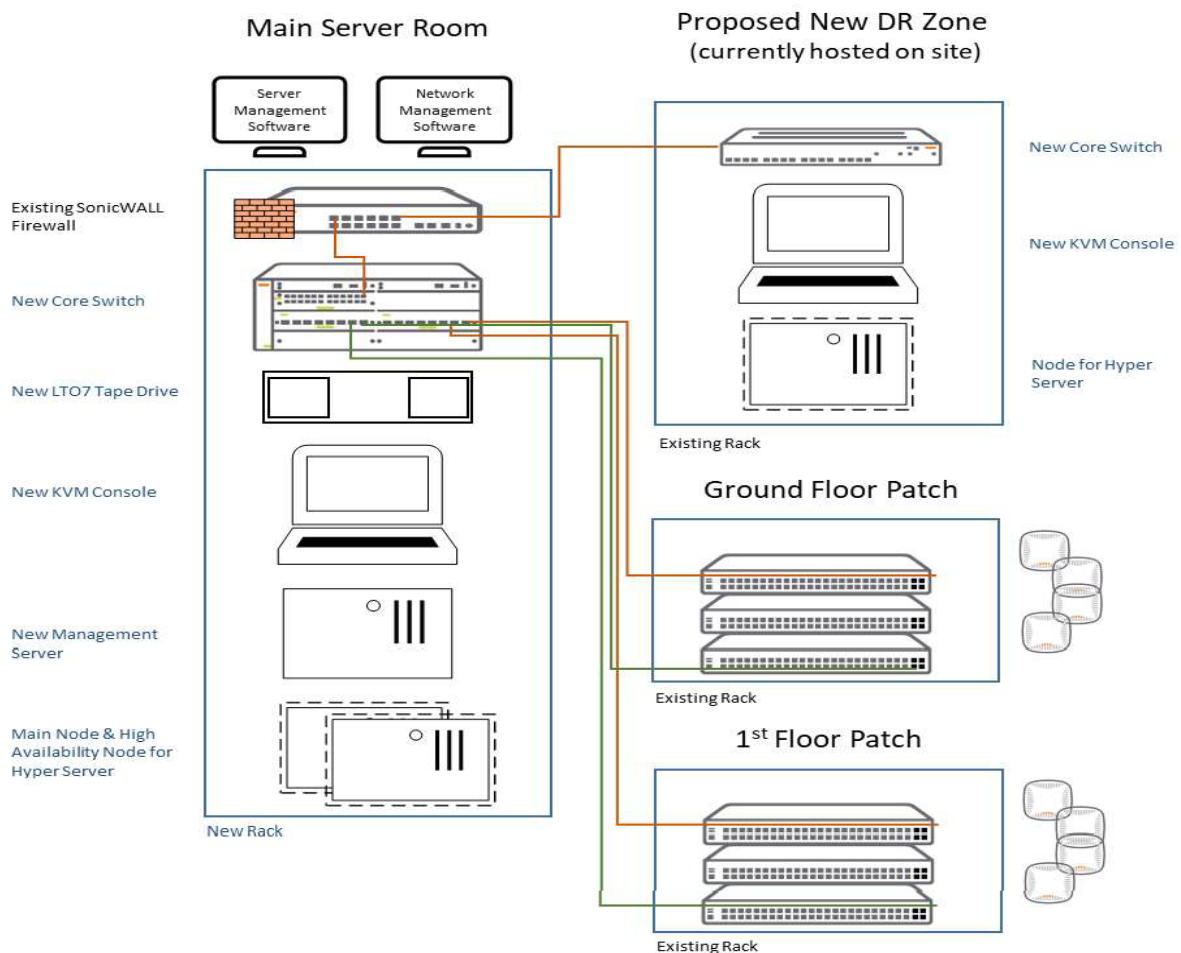

- It should be **highly secured** with a unified approach to protect the entire solution from a hardware and software point of view;

- All data at rest and in motion should be encrypted;
- Must be highly fault-tolerant and agile; and Flexible
- to meet peak workloads demands.

4. SCOPE OF WORK

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
