However, a late Bid may be accepted where the Bidder can clearly demonstrate (to the satisfaction of the DBSA, in its sole discretion) that late lodgement of the Bid was caused by the DBSA; that access was denied or hindered in relation to the physical tender box; or that a major/critical incident hindered the delivery of the Bid and, in all cases, that the integrity of the Tendering Process will not be compromised by accepting a Bid after the Closing Time.

17.3 The determination of the DBSA as to the actual time that a Bid is lodged is final. Subject to clause 17.2, all Bids lodged after the Closing Time will be recorded by the DBSA and will only be opened for the purposes of identifying a business name and address of the Bidder. The DBSA will inform a Bidder whose Bid was lodged after the Closing Time of its ineligibility for consideration. 20.1 Incomplete Bids may be disqualified or evaluated solely on information contained in the Bid.

20.2 The DBSA may disregard any content in a Tender that is illegible and will be under no obligation whatsoever to seek clarification from the Bidder.
20.3 The DBSA may permit a Bidder to correct an unintentional error in its Bid where that error becomes known or apparent after the Closing Time, but in no event will any correction be permitted if the DBSA reasonably considers that the correction would materially alter the substance of the Bid or effect the fairness of the Tendering Process.

21. **OBLIGATION TO NOTIFY ERRORS**

If, after a Bidder’s Response has been submitted, the Bidder becomes aware of an error in the Bidders Response (including an error in pricing but excluding clerical errors which would have no bearing on the evaluation of the Bid), the Bidder must promptly notify the DBSA of such error.

22. **RESPONSIBILITY FOR BIDDING COSTS**

The following formula will be used to calculate the points for price:

\[ Ps = 100\left(1 - \frac{(Pt - Pmin)}{Pmin}\right) \]

Where:
- \( Ps \) = Points scored for comparative price of tender or offer under consideration;
- \( Pt \) = Comparative price of tender or offer under consideration; and
- \( Pmin \) = Comparative price of lowest acceptable tender or offer.

An unincorporated trust, consortium or joint venture will qualify for points for their B-BBEE status level as an unincorporated entity, provided that the entity submits their consolidated B-BBEE scorecard as if they were a group structure and that such a consolidated B-BBEE scorecard is prepared for every separate Bid.
26.5.3 **Total**

The total points scored by each Bidder will be calculated by adding the points scored for price (out of 80) to the points scored for preferential procurement (out of 20).

The successful Bidder will be the Bidder which has the highest total points (out of 100) for both price and preferential procurement (unless there is a basis for selecting a different successful Bidder in accordance with section 2(1)(f) of the PPPFA).

26.6 **Fourth Stage: Risk Analysis & Other Objective Criteria**

a) Firstly, in addition to the financial offer and preference evaluation, the Tenderers having the highest ranking / number of points, will additionally be reviewed against the following points listed as “Other Objective Criteria” in terms of the PPPFA Regulations of 2017, in order to ascertain suitability for award.

i) If having passed Responsiveness, the tenderer will again be checked in terms of having a Compliant Tax Status at time of recommendation to confirm that the status has not changed, based on an active and Tax Complaint Pin issued by the South African Revenue Services.

ii) Fully compliant and registered with the National Treasury Central Supplier Database.

iii) No misrepresentation in the tender information submitted.

iv) Any non-performance on DBSA, or DBSA client projects.

v) The tenderer or any of its directors/shareholders is not listed on the Register of Tender Defaulters in terms of the Prevention and Combating of Corrupt Activities Act of 2004 as a person prohibited from doing business with the public sector; and

vi) The tenderer has completed the Compulsory Enterprise Questionnaire and there are no conflicts of interest which may impact on the tenderer’s ability to perform the contract in the best interests of the employer or potentially compromise the tender process and persons in the employ of the state are permitted to submit tenders or participate in the contract.

vii) Convicted by a court of law for fraud and corruption

viii) Removed from a contract between them and any organ of state on account of failure to perform on or comply with the contract.

ix) Financial health of the bidder may be assessed if deemed necessary, to ensure that the service provider will be able to operate as per required deliverables (Ratios: Accounts Receivable & Payable Turnover, Liquidity & Solvency).
x) In terms of unduly high Tendered fees in the Tender offer, refer to the PPR2017.

xi) PEP Check and Procure Check to be initiated if negative, may result in exclusion

<table>
<thead>
<tr>
<th>TERMS OF REFERENCE</th>
</tr>
</thead>
<tbody>
<tr>
<td>PROFESSIONAL SERVICE PROVIDER TO CONDUCT AN ASSESSMENT OF DIFFERENT CATEGORIES OF MUNICIPALITIES’ CAPACITY TO IMPLEMENT DEVELOPMENT CHARGES FOR NATIONAL TREASURY – CITIES SUPPORT PROGRAMME</td>
</tr>
</tbody>
</table>

1. **Purpose**

   The purpose of the terms of reference is to appoint a service provider to undertake a comprehensive assessment of different categories of municipalities’ capacity to implement development charges.

2. **Background**

   2.1 The local government sphere plays an important role in the transformation of our country. It is accordingly important that this sphere of government is appropriately capacitated to fulfil its service delivery and developmental mandates. A developmental local government requires municipalities to focus their energies on (a) the provision of household infrastructure and services; (b) the creation of liveable, integrated cities, and rural areas; (c) local economic development; and (d) community empowerment and redistribution.

   2.2 Many South African municipalities face fast-growing needs for investment in infrastructure to deliver municipal services. These investments are required to ensure access to basic services, to meet the needs of growing populations and economies, as well as to renew existing assets. Yet, according to a study compiled by the National Treasury in 2015, municipalities significantly under-invest in infrastructure networks by approximately R15 billion per annum. This is increasingly problematic as both public and private sector developments, including state-subsidised housing projects, are routinely delayed due to a lack of financial resources for infrastructure investment. The same study estimated that roughly half of that amount could be recovered from developers through a system of development charges. However, only a fraction of this capital revenue potential is currently being recovered.

   2.3 Development charges are important components of a sustainable municipal infrastructure financing system. They can be used by municipalities alongside own revenue and long-term borrowing to finance strategic infrastructure capable of unlocking development. Proceeds from development charges can be used for leveraging municipal debt and for servicing municipal debt.
2.4 Development charges are an existing once-off charge levied by a municipality on the developer to recover costs that a municipality incurs when installing new infrastructure or upgrading an existing infrastructure to service a proposed land development. They are currently regulated through various pieces of legislation, such as the Municipal Finance Management Act, Municipal Systems Act, Municipal Fiscal Powers and Functions Act, various Provincial Land Use Ordinances and Spatial Planning and Land Use Management Act. This has created confusion, scope for extensive litigation, conflicting legal perspectives and a general resistance by municipalities to impose the charge.

2.5 The National Treasury is amending the Municipal Fiscal Powers and Functions Act to provide clarity on how development charges should be levied. The amendment seeks to create legal certainty for municipalities to impose development charges, regulate the applicability of the development charges and create a more standardised, equitable and sustainable framework for development charges.

2.6 The new legislation will set new rules to be applied when levying development charges. The successful implementation of the proposed legislation will largely depend on the capacity and skills of municipalities to implement the development charges. To ensure that municipalities are ready to implement the proposed framework on development charges, National Treasury therefore intends to provide technical support to municipalities. The content of the support should be informed by the needs of municipalities as it relates to levying of development charges. It is on this basis that the services of a service provider are required to conduct the capacity assessment of municipalities to identify gaps/areas on which municipalities require technical support in order to successfully levy the development charges. Based on the findings of the assessment, the service provider will also be required to develop a manual on development charges that will be used by National Treasury to provide support to municipalities.

3. Scope of work

(i) Eastern Cape - 2 workshops
(ii) Free State - 1 workshop
(iii) Gauteng - 1 workshop
(iv) Kwa Zulu Natal - 2 workshops
(v) Limpopo - 1 workshop
(vi) Mpumalanga - 1 workshop
(vii) Northern Cape - 2 workshops
(viii) North West - 1 workshop; and
(ix) Western Cape - 1 workshop

c) Based on the information received from municipalities, conduct analysis on the actual capacity (both functional and technical capacities assessment identified and captured on the assessment tools) of different municipalities to implement development charges;

d) Identify areas that require capacity building and based on these, identify preliminary steps to be undertaken by municipalities to establish proper development charges systems that are in compliance with the provisions of the proposed development charges framework;

e) Draft and design a manual to build and/or improve municipal capacity to implement development charges;

f) Prepare and capacitate National Treasury officials on the tools designed in order to enable them to provide support to municipalities;

h) Design a monitoring and evaluation tool (e.g. workshop evaluation questionnaire) which National Treasury will use to assess the usefulness and impact of the support and to determine future assistance or support to municipalities; and

i) Provide a close out report, including lessons learnt

CERTIFICATE OF INDEPENDENT BID DETERMINATION

1. This Standard Bidding Document (SBD) must form part of all bids¹ invited.

2. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a per se prohibition meaning that it cannot be justified under any grounds.

3. Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:

   a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.

   b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

4. This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

5. In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
