ANNEXURE A

RESPONSES TO BIDDERS

No.	Query	Response
0		
1	Kindly send us the Electrical Specifications (lighting schedules incl.) urgently please.	Information sent: Detail Electrical Specification Detail LPE Specification General LPE Specification
2	Metalwork Section – Window schedule not corresponding with BOQ items, Item 4 window 673 x 511 (W21) comparison with SS21, Item 13 window 1025 x 511 (SS21)	<p>Window Schedules are related to a particular building block.</p> <p>e.g. SS21 can be top hung on Block A and be bottom Hung on Block C</p> <p>The drawings are structured so that you only read window numbering, size and opening sections per Block. Each building/ Block has it on separate window schedule that must be read against a relevant Floor Plan, in addition to the floor plan, you can use the Elevations for additional clarity.</p> <p>Taking SS21 as an example: SS21 on Block B, can be different SS21 on Block C. They can be different in size and opening sections. These difference are influenced by:</p> <ul style="list-style-type: none"> - Location and position of the window, - Window numbering restrictions. <p>If you take SS21 from one (1) building to the next you will confuse the numbering against schedule and related layouts.</p> <p>At pricing purposes please use the BoQ, since all measurements are structured to suite tender drawing, and window schedule and related layouts, are recommended for procurement purposes at executions stage.</p>
