Standard Electrical Notes:			
This drawing only shows the electrical installation requirements.			
The subcontractor must consult the other drawings relevant to this section of the project to ensure that in fixing his work it will comply with the overall requirements of the visual design as shown on the architect's drawings and that it will not obstruct the fixing or future maintenance of other services.			
The subcontractor is responsible with the main contractor for correct field dimensions, clearances and heights, quantities, fabrication processes and techniques of construction, co-ordination of his work with that of all other trades and for providing all devices necessary for safe and satisfactory operation.			

Legend:			
	- Green break glass unit in 100mm x 100mm outlet box at 1200mm AFFL or at height as indicated		
	- Biometric reader in 100mm x 100mm outlet box at 1200mm AFFL or at height as indicated		
	- Status point in ø60mm conduit box above door frame		
	- Maglock		
	- Ceiling mounted CCTV camera
