

Notes:			
<b>GENERAL NOTES:</b> Quality of workmanship to comply to relevant SANBS specifications, and to comply with the minimum standards prescribed. All requirements of municipal and other authorities concerned have to be adhered to. All work to be done strictly in accordance with the national building regulations and the SANBS 0400 minimum standard specifications.  Contractor is responsible for the correct setting out of the building. All internal and external walls according to correct heights, levels and measurements.  Contractor is to make sure that all detail is clear, and to contact architect if anything is not clear enough.  Trade names and code numbers are used as a guide only. Similar or equal items may be used by prior approval of architect.  Figured dimensions take preference to scaled measurements and large scale detail takes preference to small scale drawings.
