TERMS OF REFERENCE (TOR)

1. BACKGROUND

The Social Housing Programme (**SHP**) is a R144 billion national human settlements initiative aiming to address the national social housing backlogs estimated at 320 000 social housing units (**SHUs**), for approximately 960 000 occupants. Social housing is defined as a rental or co-operative housing option for low-to-medium income households earning between R1 850 and R22 000 per month. The programme is implemented at a level of scale and built form which requires institutionalised management. In other words, social housing excludes individual ownership by residents, including deferred ownership arrangements such as 'rent to buy'.

The primary objectives of the SHP are to:

- Provide residential accommodation for low-to-medium income households;
- Promote urban restructuring through the social, spatial, and economic integration of housing developments into existing areas;
- Facilitate the provision of integrated bulk services and human settlements;
- Revitalise urban areas to integrate, empower and uplift poor communities;
- Promote the establishment of well-managed, quality rental housing options for the poor;
- Promote a safe, harmonious, and socially responsible environment for the project and urban environment:
- Secure tenure for the residents of projects:
- Foster the creation of quality living environments for low to moderate income earners;
- Provide clean, healthy and safe environments within close proximity to services;
- Develop transport routes, clinics, schools, and economic opportunities; and
- Promote community development and integration.

The SHP aims to improve the functioning of the human settlements sector by contributing to the range of housing options that are available to the poor. There are various housing delivery options including subsidised housing, private market rentals, gap market housing and private ownership. However, the beneficiaries of the SHP are not eligible for these options.

The developmental costs of SHUs are funded up to 70 per cent (%) by the Department of Human Settlements (**DHS**) through the Consolidated Capital Grant (**CCG**) that is being administered by the Social Housing Regulatory Authority (**SHRA**). The Social Housing Institutions (**SHIs**) and Other Delivery Agents (**ODAs**) are the entities responsible for building and operating the SHUs. They are required to raise up to 30% of the construction costs through debt and/or equity.

Most of the SHIs and ODAs are new or emerging cooperatives/companies with minimal or no SHUs development track record. This is resulting in private investors, in particular commercial banks participating less in providing equity or debt financing to the SHIs and ODAs. This, coupled with fiscal constraints on the CCG has slowed down the financing and implementation of the SHP.

2. OBJECTIVES OF THE TERMS OF REFERENCE

Given the low socio-economic profile of social housing sector and the need to accelerate the delivery of the SHUs and stimulate private sector investment, the DHS, SHRA and Infrastructure Fund (**IF** – a ring-fenced division of the Development Bank of Southern Africa-**DBSA**, from herein defined as "**the IF or Lender**") are in a long-term partnership for the development and financing of the SHP. The partners applied to the National Treasury (**NT**) for fiscal support to the tune of R305 million through the Budget Facility for Infrastructure¹ (**BFI**).

Four (4) greenfield social housing projects will benefit from the funding through bridging loan facilities to be provided by the IF to accelerate and facilitate financial close. The IF is currently conducting a due diligence exercise for potential debt funding for 4 projects as summarised in **Table 1**. Thus far, 3 projects have successfully appointed LTAs. Project 4 is yet to secure the services of an LTA. This advert relates only to one (1) of the projects (Project 4 whose details are still being confirmed).

Table 1: Greenfield Social Housing Projects (2021 BFI)

No.	Project Name	Project Cost (R'000)	Location	Units	LTA Status

3	Project 3	453 442	Western Cape	1 055	Appointed
4	Project 4	TBC	TBC	TBC	Not Appointed

The IF will lend the allocated funding to the SHIs and/or ODAs and will be providing a short-term bridging financing for the development, construction and operation of the 4 projects. The IF will enter into 4 separate facility agreements with each individual project company or institution, however, envisages for the bridge facility to be in place for 4 years, which covers both the construction period and part of the operation period. The intention is for the loan to be either repaid or refinanced within 2 years of commercial operation.

The Lender is seeking proposals from prospective Lender's Technical Advisors (LTAs) who are experienced consulting firms to provide customary services in connection with the technical due
