However, a late Bid may be accepted where the Bidder can clearly demonstrate (to the satisfaction of the DBSA, in its sole discretion) that late lodgement of the Bid was caused by the DBSA; that access was denied or hindered in relation to the physical tender box; or that a major/critical incident hindered the delivery of the Bid and, in all cases, that the integrity of the Tendering Process will not be compromised by accepting a Bid after the Closing Time.
- 17.3 The determination of the DBSA as to the actual time that a Bid is lodged is final. Subject to clause 17.2, all Bids lodged after the Closing Time will be recorded by the DBSA and will only be opened for the purposes of identifying a business name and address of the Bidder. The DBSA will inform a Bidder whose Bid was lodged after the Closing Time of its ineligibility for consideration. The general operating practice is for the late Bid to be returned within 5 (five) working days of receipt or within 5 (five) working days after determination not to accept a late Bid.

TERMS OF REFERENCE (TOR)

1. Introduction

The IPP Office (IPPO) is mandated to undertake the procurement of energy on behalf of the Department of Mineral Resources and Energy (DMRE). As such it is the IPPO's responsibility to prepare procurement documentation and run the procurement processes to ultimately select and appoint successful bidders. The procurement documentation is largely prepared taking into consideration the guiding policies and strategies, as well as required legislation and is ultimately approved and signed off following the DMRE's Supply Chain Management Policies.

2. BACKGROUND AND Purpose

Significant expansion of the South African economy during the past few decades resulted in consequent and substantial increased growth in electricity demand without the necessary growth in the supply side. In October 2019 the DMRE released the revised Integrated Resource Plan (IRP 2019), which sets out the new electricity generation capacity requirements for the period up to 2030. The IRP 2019 provides for an additional amount of approximately 35 000 MW by 2030. Ministerial determinations give gestalt to the implementation of the IRP. Accordingly the Minister of Mineral Resources and Energy with the concurrence of the National Energy Regulator already issued three section 34 determinations to give effect to the IRP 2019.

The following are the determinations:

- The first determination for 2000 MW under the Risk Mitigation Independent Power Producer Programme (RMIPPPP);
- A second determination for 11 813 MW from various energy sources (the second determination) including 6 800 MW of solar photovoltaic and wind capacity, 513 MW of storage, 3 000 MW of gas and 1 500 MW of coal; and
- A third determination for 14 771 MW from various energy sources (the third determination) including 3 940 MW of Solar PV, 9 600 MW of Wind, and 1 231 MW of Energy Storage

The Department has embarked on several procurement programmes based on the above determinations and further determinations are expected to also ensure the implementation of the remaining MW to meet the IRP targets for 2030.

Over the past decade, the Government of South Africa through the DMRE has been undertaking the IPP Procurement Programmes (IPPP Programme) for the establishment of private sector participation and investment in the generation of electricity. The IPPP Programme has been running for 10 years.

In terms of a Memorandum of Agreement (MoA) entered into between the DMRE, the National Treasury and the Development Bank of Southern Africa (DBSA), effective from 1 May 2016, the Independent Power Producers' (IPP) Office is established as a specific and specialised project office hosted by the DBSA.

The IPP Office is mandated to undertake the procurement of energy on behalf of the DMRE through the Independent Power Producers Procurement Programme (IPPPP) and related interventions. As such, it is the IPP Office's responsibility to prepare procurement documentation and run the procurement processes to ultimately select and appoint successful bidders through a series of procurement rounds (i.e. bid windows) in alignment with the relevant electrical capacity allocations stipulated in the promulgated Integrated Resource Plan for Electricity 2019 to 2030 (IRP 2019) and associated Ministerial determinations. These bidders are IPPs and are responsible to construct, operate and maintain independent power plants, providing much needed electrical power to the South African grid. The IPP Office therefore secures electrical energy from renewable and non-renewable energy sources from the private sector as a means of diversifying South Africa's electricity mix, whilst supporting the security, reliability and affordability of national electricity supply.

In terms of the aforementioned, the IPPO appoints its own multi-disciplinary team of advisors to assist in the drafting of the RFP and related documentation.

Following the DMRE's Supply Chain Management policies, the RFP documentation needs to be approved by the DMRE's Bid Specification Committee (BSC) before release in the market.

The mandate of the BSC is, inter alia, to ensure consistency and fairness in the appointment of the bidders in line with the BSC Charter and comprises of the officials of the DMRE. The BSC is entitled to invite one or more specialists as observers or advisors in the meetings of the BSC. The mandate of the specialists are to assist the BSC undertake its activities.
