However, a late Bid may be accepted where the Bidder can clearly demonstrate (to the satisfaction of the DBSA, in its sole discretion) that late lodgement of the Bid was caused by the DBSA; that access was denied or hindered in relation to the physical tender box; or that a major/critical incident hindered the delivery of the Bid and, in all cases, that the integrity of the Tendering Process will not be compromised by accepting a Bid after the Closing Time.
- 17.3 The determination of the DBSA as to the actual time that a Bid is lodged is final. Subject to clause 17.2, all Bids lodged after the Closing Time will be recorded by the DBSA and will only be opened for the purposes of identifying a business name and address of the Bidder. The DBSA will inform a Bidder whose Bid was lodged after the Closing Time of its ineligibility for consideration. The general operating practice is for the late Bid to be returned within 5 (five) working days of receipt or within 5 (five) working days after determination not to accept a late Bid.

20.3 The DBSA may permit a Bidder to correct an unintentional error in its Bid where that error becomes known or apparent after the Closing Time, but in no event will any correction be permitted if the DBSA reasonably considers that the correction would materially alter the substance of the Bid or effect the fairness of the Tendering Process.

21. OBLIGATION TO NOTIFY ERRORS

If, after a Bidder's Response has been submitted, the Bidder becomes aware of an error in the Bidders Response (including an error in pricing but excluding clerical errors which would have no bearing on the evaluation of the Bid), the Bidder must promptly notify the DBSA of such error.

PART E

TERMS OF REFERENCE & PROJECT BRIEF

1. INTRODUCTION

The IPP Office (IPPO) is mandated to undertake the procurement of energy on behalf of the Department of Mineral Resources and Energy (DMRE). As such it is the IPPO's responsibility to prepare procurement documentation and run the procurement processes to ultimately select and appoint successful bidders. These bidders (Independent Power Producers [IPP/s]) are responsible to construct, operate and maintain independent power plants providing much needed power to the South African grid.

2. BACKGROUND AND PURPOSE

Following the promulgation of the Integrated Resource Plan 2019 (IRP 2019), the Minister of Mineral Resources and Energy has gazetted three Determinations aimed at procuring 28 584 MW of new generation capacity.

NERSA concurred with the Third Ministerial Determination from the Minister of Mineral Resources and Energy in December 2022. This Determination provides for the procurement of 14 771 MW of new generation capacity, broken down as follows:

- 3940 MW of PV;
- 9600 MW of Wind; and
- 1231 MW of Battery Storage

The IPPO received a mandate to undertake the procurement of energy for the Third Determination from IPPs on behalf of the DMRE.

As a continuation under the Third Determination, the IPPO is planning to

procure additional new generation capacity under Bid Window 7.5 and under Bid Window 8 of the Renewable Energy Independent Power Producer Programme (REIPPPP).

While the REIPPPP has been successful in bringing new Solar and Wind Capacity online over the last decade, the removal of licensing requirements for private/corporate investment in new generation capacity in 2021 and the outcome of the procurement undertaken in Bid Window 6 have highlighted the impact of grid constraints in bringing the planned and required new generation capacity online. In Bid Window 6, only 1000 MW out of 4200 MW determined could be allocated as a result of grid capacity constraints. Similar outcomes were achieved in Bid Window 7. The Bid Window 7.5 & 8 roll out is dependent on finding a workable solution in the short term to the grid constraints identified.

The latest grid availability status report as published by Eskom; the Generation Connection Capacity Assessment (GCCA) report clearly sets out the details of the grid constraint. Alternative approaches to the REIPPPP are urgently needed to complement the current and existing programme to ensure its sustainability into the future.

Most recently due to fiscal constraints, the level of government support has been reduced from 100% to 80% under Bid Window 7. In developing the procurement documents and setting the level of the government support due regard will need to be had to the outcome of the reduced support in Bid Window 7 as well as the work which the IPPO is currently undertaking in revising the Government Support Framework Agreement to identify further opportunities to reduce the contingent liability to Government.

Various developments have been taking place in the sector including:

- a) Establishment of the NTCSA who is the Buyer under the Ministerial Determinations;
- b) NERSA process for consideration of capacity reservation and/or pre-severation for purposes of the Ministerial Determination; and

- c) Electricity Regulation Amendment Bill and its accession to law.

In consideration of the above, there is a requirement to appoint a team of Transaction Advisers to provide professional services for:

- a. Review of the procurement framework and Request for Proposals (RFP) suite of documents (incl. the evaluation methodology and templates and the proforma agreements) in view of lessons learnt, current market developments and challenges experienced on the REIPPPP and to ensure compliance with latest National Treasury SCM notes on public procurement;
- b. Consideration of how the benefits of Renewable Energy credits could be monetized to ensure better Value for Money and benefit under the REIPPPP;
- c. Reviewing and updating as the case may be, the Concept and RFP suite of documents for Bid Window 7 and drafting of the Bid Window 7.5 and 8 REIPPPP Concept and RFP (or RFPs) as the case may be;
- d. Drafting the Power Purchase Agreement (PPA) to be entered into with the Buyer, the Implementation Agreement (IA) to be entered into with the Department; the Independent Engineer Agreement, relevant Connection Agreements as well as the Direct Agreements and Government Support Framework Agreement;
- e. All activities related to Evaluations of the Bids Submitted; and
- f. All activities associated with Commercial and Financial Close.

2.1 Bid Window 7.5 and Bid Window 8 Concept development and RFP Drafting.

The basic criteria for the formulation of the Concept and new RFP will be:

- A concept note to be developed / reviewed and updated by the Transactional Advisors and to be finalised in consultation with the IPPO, DMRE and key stakeholders including market engagements if required and engagement with key Government

regulatory authorities, including NERSA, Eskom, DFFE;

- Studies and concepts that were undertaken or are being developed by the IPPO must be reviewed and considered for inclusion in concept development;
- Consideration and improvements based on previous REIPPPP Bid Windows;
- The requirements of the IRP 2019 and Integrated Resource Plan 2023 (IRP 2023) for energy security as well as those of the System Operator for balancing of the system, including but not limited to ancillary services and dispatchable or variable energy output;
- To procure the capacity on a least cost basis at the most competitive and affordable price, and least regret basis and that it should not worsen Eskom's (the Buyer) financial position or unduly increase government's contingent liability;
- To achieve a Commercial Operations Date (COD) at the set times,
- To support the transition to cleaner energy sources.
- To support the just transition and socio-economic transformation agenda of Government encourage opportunities for black industrialists and support the development of black independent power producers; and
- To facilitate investments in the energy sector, support economic growth, increase job, opportunities and support local manufacturing opportunities.

The team of Transaction Advisers will consist of:

- Legal Advisers;
- Economic Development Advisers;
- Financial Advisers; and
- Technical Advisers.

2.2 Bid Evaluation, Commercial and Financial Close Activities

As in all previous IPP Programmes, the evaluation of bids will be undertaken by external, independent, teams of experts representing all required disciplines, as well as a governance expert(s) that will also be

appointed to oversee and monitor evaluation process and procedures. An independent review of the Evaluation outcomes will also be undertaken.

As part of this TOR, a team of multi-disciplinary, independent evaluators will be selected to (a) conduct the Evaluation of Bids, (b) and upon appointment of Preferred Bidders, to conduct and provide services for the purpose of all activities related to Commercial and Financial Close.

In view of the above, the team of appointed Transaction Advisers for the Evaluation will consist of:

- Legal Advisers;
- Economic Development Advisers;
- Financial Advisers;
- Technical Advisers; and

It should also be noted that a firm will be appointed for the Drafting of the RFP, Evaluation of bids received and Commercial and Financial Close activities. The Fee proposal is a fixed price proposal.

Additionally, the Transaction Advisers are required to provide their hourly charge rates.

Where conflicts may exist, the Department may consider the appointment of two teams to undertake the Evaluation and Commercial and Financial close activities. If more than one firm is selected per discipline, the Department retains the right to assign the role of coordinator and penholder to one of the teams to ensure the efficient coordination and delivery of the combined evaluation report from the advisory team.

Furthermore, there will be a need for the team to work collaboratively, as is necessary on deliverables such as the final reports.

The Fee proposal must consider that the Evaluation will be done on site in secure environment.

In responding to this ToR, the Transaction Advisors are required to note that a separate or distinct fee proposal should be provided for Bid Windows 7.5 and Bid Window 8. It should also be noted that a firm will be appointed for the Drafting and Development of the RFP, Evaluation and Financial Close activities for both Bid Window 7.5 and Bid Window 8.

There will be a need for the teams to work collaboratively, as is necessary on deliverables.

This Terms of Reference is being sent to open market.

3. SCOPE OF WORK

3.1 Drafting of the RFP

The key requirement for Bid Window 7.5 and Bid Window 8 REIPPPP will be to procure Renewable Energy capacity from the determined technologies within stated lead times

. Considering the timeframe for the procurement process, together with the construction lead times, this RFP is being released to the market with the aim of ensuring connection as soon as possible and having due regard to the current grid capacity constraints.

Drafting the RFP for the Bid Window 7.5 and Bid Window 8 REIPPPP RFP will be based on the Concept Note to be finalised together with the DMRE, IPPO and key stakeholders. It is anticipated that the RFP will consider historical approach to Economic Development (ED) in the previous RFP documents and Project Agreements, ensure compliance with updated legislative requirements and consider the applicable regulatory framework for Economic Development inclusion in the RFP and draft the qualification and evaluation criteria adopted for the specific nature of the REIPPPP Bid

Window 7.5 and Bid Window 8 taking into account lessons learned to date. However, it must be highlighted that REIPPPP Bid Window 7.5 and Bid Window 8 will be different from the previous bid windows in terms of applying innovative approaches to addressing grid capacity constraints to ensure a successful programme, together with a robust evaluation methodology that is reflected both in the RFP and the evaluation templates and taking into account the recommendations from the Transaction Advisors on revisions required to the current procurement approach.

The ED Advisor will be required to review, update and improve all ED criteria of the RFP such that all information, including supporting documentation submitted in response to ED, is assessed as part of the qualification criteria under Part B. Any firm of advisors advising the DMRE will be allowed to advise private sector and/or the lenders in the procurement process, provided that the same individuals from firms advising the DMRE on the Programmes will not be used by such firms when advising private sector and/or the lenders.

In managing potential conflict of interest and also in lieu of a potential high number of bid responses, the Transactional Advisors will have to declare and indicate how they will manage potential conflict of interest.

Therefore, a firm participating in this tender should provide the DMRE with its policy to manage potential conflict of interest that may arise from such firm of advisors that are advising both the DMRE and Bidders. This policy should include the measures that will be put in place and applied to manage such conflict of interest.

The Evaluation Team will have to sign Declaration of Interest and Confidentiality Undertakings.
