## TERMS OF REFERENCE

#### 1. CONTEXT

The DBSA is a Development Finance Institution (DFI) wholly owned by the Government of South Africa to promote economic development and growth, human and institutional capacity building for sustainable development projects and programmes in the African continent. Reporting to the Minister of Finance as the Executive Authority, the DBSA has its primary purpose firmly rooted in stimulating socioeconomic growth, given its infrastructure and capacity development mandate. The Bank's strategic thrust include driving sustainable growth with development impact, providing integrated infrastructure solutions and ensuring both operational and financial sustainability.

#### STRATEGIC GOALS

Underpinned by the Bank's purpose statement to "bend the arc of history toward shared prosperity", the DBSA is focused on ensuring financial sustainability and strong governance, while achieving a trajectory of accelerated and enhanced development impact, i.e., "growing the DBSA to maximise development impact." It builds on the four strategic goals of the DBSA strategy, namely:

## 1) Financial sustainability

The DBSA aims to achieve financial sustainability through income growth, balance sheet growth, and cost optimisation. Achieving disbursement and credit extension targets is crucial to the financial sustainability of the Bank as this directly relates to the Bank's asset base, which must grow at a rate higher than or at par with increasing operating costs for long-term sustainability.

## 2) Accelerating development impact

Balanced with the financial focus is the developmental focus, which sees the Bank continuing to invest in those projects and activities that ultimately contribute towards unemployment reduction, poverty alleviation, and reduction of inequality. The aim is to drive quality transactions, while ensuring greater development impact of our investments. Priority is placed on increasing the development impact of disbursements and projects in our sectors in the region, as well as in the South African municipalities. The DBSA works to create an integrated development environment in the value chain in order to respond to the rapid changes in the environment – particularly in a post-lockdown environment.

## 3) Future-fit-DBSA

The DBSA endeavours to be more effective through tailoring its products, services, and organisational capabilities to respond to stakeholder needs. There is a need to improve collaboration and integration internally, as well as to completely digitalise the Bank. This will require an integrated approach operationally and a shift from strategy implementation through individual performance to team performance and outcomes. A future-fit DBSA requires a culture reform and mindset shift towards growth and innovation.

## 4) Smart partnerships

Smart partnerships are purpose-driven collaborations that co-create development solutions and enhance private sector participation in infrastructure projects that promote inclusive growth. They also help public sector entities unlock bottlenecks that serve as stumbling blocks to accelerated infrastructure development. The Bank pursues such partnerships inside and outside South Africa to fulfil its mandate.

## 2. PURPOSE OF THE TERMS OF REFERENCE

The DBSA is legislatively required to develop an annual Corporate Plan, which reflects on the Bank's strategic thinking, direction, and action leading to the achievement of consistent and planned results. The Corporate Plan identifies strategically important outcomes-oriented goals and objectives against which the DBSA's medium-term results can be measured and evaluated by the National Treasury, Parliament, and the Public.

On an annual basis, the DBSA holds a strategy planning session with its leadership team comprising of Executive Management and Unit Heads. This session is scheduled to take place over two days on 25 - 26 September 2025 (*dates will be confirmed with the successful bidder*). The purpose of this session is to reflect on the Bank's strategy and align the short, medium, and long-term organisational goals with the overarching DBSA mandate and its development position. The outcome of the session is a comprehensive roadmap that guides the Bank's decisions, strategic initiatives, and actions, aligning resources and efforts towards achieving short, medium, and long-term goals and objectives. The session is informed by data driven insights, best practice, and predictions about the future of the DBSA.

This session is facilitated by an external service provider who will be responsible for: (1) providing an expert view on the development finance industry (particularly in the infrastructure financing space), (2) synthesising strategic themes and (3) coordinating ideas from the sessions.

The session will be focused on the existing strategic themes and pertinent areas of challenge/opportunity within the Bank. The strategy planning session must be structured in a way that will enable discussions relevant to the strategy of the Bank.

### CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids<sup>1</sup> invited.
- Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).<sup>2</sup> Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
  - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
  - cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

<sup>&</sup>lt;sup>1</sup> Includes price quotations, advertised competitive bids, limited bids and proposals.

<sup>&</sup>lt;sup>2</sup> Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
