

RFP063/2025	Question		Response
Rajiv - Bosch	Could an extension of time be considered for the bid submission given the extensive scope of work?		It has been extended to 16 July 2025. (See addendum 01)
	Please provide TECH1, TECH2 and TECH3 Forms.		See attached
	Please confirm the frequency of knowledge transfer meetings. The bid documents specify 2 hours per month and then mention weekly meetings.		Page 53 of 80 states "The consultant's lead resources will each be expected to transfer their knowledge related to the scope during the assignment. Each lead resource must dedicate at least two (2) hours per month (one hour for preparation and one hour for a presentation) over a period of 5 months towards training and capacity building." Page 65 of 80 "Bidder to expand as required for the various resources, ...2 hours per Lead Resource x 5 months" ie. Tech Specialist, Financial Specialist, Structuring Specialist and Legal Specialist hold one session per month over 5 months.
	Please could you confirm the documents that are required from sub-consultants.		CIPC, Tax Certificate, BBBEE, CSD report
Ruth Cottingham - Khanyisa	Lead technical specialist professional registration: please confirm if international equivalent registration to ECSA (e.g. UK Engineering Council Chartered Engineer) will be considered as equivalent and If yes please could an addendum be issued confirming this?		The United Kingdom (Engineering Council) is listed as a signatory to the Dublin Accord together with South Africa (Engineering Council of South Africa).
Michelle - PWC	Please note that the following standard forms have been provided and all bidders all required to complete in relation to the following: <ul style="list-style-type: none">Form TECH 1- Service Provider's Organization and ExperienceForm TECH 2- Key Resources Project ExperienceForm TECH 3- Curriculum Vitae (CV) of all Resources Only relevant / essential documentation and information must be provided as part of the bid submission.		See attached.
Shandre - Pegasus	To be sure, I presume Annexure A2 is for bidder / company experience. And that Specialist experience must be in their CV's in the format stipulated? <i>(P.57 brief descriptions of the key projects that the specialists have worked on, including: ➤ the scope and duration of the project, ➤ the length of the candidate tenure on the project, ➤ their key activities, ➤ responsibilities, and ➤ achievements on the project.)</i>		See attached Tech 1,2 and 3 for Organization, Key Resource Experience, CV format
	What I mean is this clause (P.57) - <i>A Project/ Transaction Reference List indicating the names of up to 5 projects that are relevant to the assignment. This should include: ➤ the client whom the project was done for; ➤ the project duration including start and end dates; ➤ the project location; ➤ the project approach; and</i>		See attached Tech 1,2 and 3 for Organization, Key Resource Experience, CV format
	<i>➤ the project's value addition)</i> – this is then for Bidder / company experience and will go in Annexure A2?		See attached Tech 1,2 and 3 for Organization, Key Resource Experience, CV format
	I would like to clarify, the requirement of ' <i>three recent traceable & contactable project references</i> ' - is it sufficient to list the requisite details in each expert's CV or is there an expectation to furnish reference letters for this criterion?		Sufficient to list the requisite details in each expert's CV
