1. BACKGROUND INFORMATION

The National Department of Health (NDoH) approved the Infrastructure Programme Implementation Plan (IPIP) which mentioned specific programmes and projects that should be implemented by DBSA, on behalf of the National Department of Health (NDoH). As part of the Infrastructure Programme Management Plan (IPMP) that follows on the IPIP, the NDoH included the construction of the following new hospitals:

- Tshilidzini Regional Hospital (TRH)
- Elim District Hospital (EDH)
- Siloam District Hospital (SDH)

The projects are to be appraised through the Budget Facility for Infrastructure (“BFI”) process in line with requirements stipulated in the Guideline on Budget Submissions for Large Strategic Infrastructure Proposals (2025) (“the Guideline”). One of the requirements is a comprehensive Socio-Economic Analysis (CEA) study report in line with the methodologies required by the National Treasury. These analyses is important to inform government’s decisions with regard to the feasibility of the projects and to assist to determine Value for Money in the long term.

DBSA as Implementing Agent needs to procure the services of a suitably qualified team of experienced Cost Effective and Socio-Economic Specialists to conduct a required comprehensive Socio- Economic Analysis report, for each Hospital project, for submission to National Treasury.

The socio-economic analysis study must, in accordance with the Guideline, involve two appraisal tools, namely, the Cost Benefit Analysis (“CBA”) or Cost Effectiveness Analysis (“CEA”) as well as a Wider Impact Analysis study (jointly “the Analysis”). The Guideline requirement for a socio-economic analysis study is consistent with other Guidelines by the National Treasury, such as the Capital Planning Guidelines and the PPP Manual.

The report is to be prepared to provide an overview of the cost-benefit or cost effectiveness analysis of the funding for the Project. The analysis must identify and quantify the costs and the benefits to society. Major costs and benefits are to be described, and the values attached to each clearly shown

In order to assess if the results of the Analysis actually support a case for the Project to proceed, the Analysis report should demonstrate that the methodology is sound and consistent. To this end, it is of importance that all the information related to the Analysis is made easily available and is discussed convincingly by the socio-economic specialist(s) in the form of a quality report, that refers to methods and tools used (including the model(s) used for calculations) as well as all the working hypotheses underpinning the analysis and especially the forecasts of future values, in addition to their sources.

2. SCOPE OF WORK

2.1. Objective

The cost-benefit analysis or cost-effective analysis must establish whether investment in the new Hospital project is the most efficient use of society’s resources.

2.2. Accessibility of Information

In order to assess if the results of the Analysis actually support a case for the Project to proceed, the Analysis should demonstrate that the methodology is sound and consistent. To this end, it is of importance that all the information related to the Analysis is made easily available and is discussed convincingly by the socio-economic analyst in the form of a quality report, that refers to methods and tools used (including the model(s) used for calculations) as well as all the working hypotheses underpinning the analysis and especially the forecasts of future values, in addition to their sources. The service provider shall be required to transfer the proprietary rights for the study and share the raw data and models.

2.3. Aspects to be covered

The Analysis report should cover the following aspects:

- The main economic costs and benefits to government and society, taking into account the full impacts on all South African citizens over the full lifecycle of the assets that will be created.
- Assessment of the socio-economic impacts of the projects on the local and national economies.
- Review of the socio-economic profiles of the location of the project and confirmation of demand and estimated impact on health outcomes.
- Provision of information that enables an assessment of welfare changes due to the implementation of the projects and estimation of the project's impacts on all segments of society as measured by the calculation of economic performance indicators.
- Justification for fiscal support for the projects through a credible analysis and assessment of social and economic costs and benefits of the projects as per the BFI guideline methodology. The wider indirect effects on the economy and society should be clearly specified and reviewed. Where these indirect factors result in quantifiable impacts – for instance environmental costs – these should be included in the appraisal.
- Where appropriate, the appraisal should reflect the monetary value of costs and benefits based on market prices, and also indicate the best alternative uses that the goods or services could be put to (the opportunity cost). The assumptions used to quantify costs and benefits in monetary terms should be clearly stated. Costs and benefits for which there is no market price should also be clearly specified and explained.
- The distributional impacts where appropriate to indicate who gains or losses from the implementation of the proposal. This involves identifying how the costs and benefits accrue to the different groups affected by the project. A proposal may have differing impacts according to age, gender, ethnic group, health, skill, or location. These effects should be stated and quantified wherever feasible.
- Policy alternatives and measure the economic impact of the projects against a “do nothing” scenario on all the alternatives.
- The assumptions used to arrive at the quantities underlying the appraisal. These assumptions need to be scrutinized and tested to ensure that the proposal remains viable even when project circumstances vary or change.
- The valuation of costs or benefits should be expressed in present value terms as opposed to ‘nominal terms’ or current prices. The deflators, discounting methods and other assumptions used to arrive at these values should be disclosed. National Treasury does not prescribe the discount rate. However, the discount rate should ideally be the cost of capital to government, similar to the rate government pays on a Treasury bond of a comparable period as the project.

- Identification, quantification, categorization, and timing of impacts, and costs and benefits. The Specialist(s) needs to identify the impact of the preferred option under consideration, categorize the impact as costs or benefits.
- Comparison of benefits with costs using the social discount rate (SDR). The costs and benefits of the preferred option must be discounted using a selected SDR to bring future values into their present-day equivalent.
- Demonstration of distributional impact(s) concerning the accrual of gains or losses to different stakeholder groups from the implementation of the project.

2.4. Background Documentation and Preparatory works

As the Tshilidzini and Elim Hospital Projects are already ready for the Framework for Infrastructure Delivery and Procurement Management (FIDPM) Stage 4 review and the Siloam Hospital Project is currently in construction (in Stage 5), documentation that can be referred to and incorporated as part of the Analysis is available. These documents include:

1. Motivation to National Treasury for funding with annexures.
2. Clinical Briefs.
3. Stage 4 Design Documentation Reports.
4. Circular for Consideration of Proposals by the BFI.
5. National Treasury 2025 BFI Guidelines.
6. GTAC – common reasons why submissions fail to meet BFI appraisal requirements.

3. KEY DELIVERABLES

4. TIMELINES

Time is of the essence and the draft report is required within 1 calendar month from appointment and the final report within 2 calendar months from appointment.

DBSA aims to achieve the best value for money when buying or selling goods and obtaining services. This however must be done in an open and fair manner that supports and drives a competitive economy. Underpinning our process are several acts and policies that any service provider dealing with DBSA must understand and support. These are:

- The DBSA Procurement Policy – A guide for Tenderers;
- Section 217 of the Constitution of the Republic of South Africa, 1996 - the five pillars of Public Procurement and Supply Chain Management: fair, equitable, transparent, competitive, and cost effective;
- The Public Finance Management Act, Act 1 of 1999 (PFMA);
- The Broad Based Black Economic Empowerment Act, Act 53 of 2003 (B-BBEE);
- The Companies Act, Act 71 of 2008;
- The Prevention and Combating of Corrupt Activities Act, Act 12 of 2004 (PRECCA);
- The Protected Disclosures Act, Act 26 of 2000;
- The Construction Industry Development Board Act, Act 38 of 2000 (CIDB Act);
- The Preferential Procurement Policy Framework Act, Act 5 of 2000; and
- The Protection of Personal Information Act 4 of 2013 ("POPIA"), regulates the processing, management, storage, and protection of personal information in order to protect an individual's right to privacy. Please refer to the DBSA website for the Privacy Statement (Contractors, Consultants and Service Providers).

The Privacy Statement sets out:

- Information which we may collect from you.
- How we collect information.
- How we may use, transfer and disclose your information.

The DBSA takes your privacy and the protection of your personal information very seriously, and we will only use your personal information in accordance with the Privacy Statement and applicable laws. We have implemented reasonable technical and operational measures to keep your personal information secure. It is important that you read the Privacy Statement carefully before submitting any personal information to the DBSA.

By submitting any personal information or documentation requested or any other information that may be requested pursuant to this RFP, you provide consent to the processing of your personal information as set out in the Privacy Statement. Further, you declare that you have obtained all consents required by the POPIA or any other applicable laws.

Thus, you hereby indemnify and hold the DBSA harmless from any loss, damages or injury that you may incur as a result of any unintentional disclosures of your personal information to unauthorized persons or the provision of incorrect or incomplete personal information to the DBSA.

This code of conduct has been included in this contract to formally appraise DBSA Service providers of DBSA's expectations regarding behaviour and conduct of its Service providers. The tenderer will share this code of conduct with its subcontractor(s) prior to submitting the tender and ensure adherence to it by the subcontractor(s).

Prohibition of Bribes, Kickbacks, Unlawful Payments, and Other Corrupt Practices

DBSA's aim is to become a world class, profitable and sustainable organisation. As such, our transformation is focused on adopting a performance culture and to adopt behaviours that will enable this transformation.

1. DBSA will not participate in corrupt practices in any form or guise. Therefore, it expects its service providers to act in the same manner.

- DBSA and its employees will adhere the laws of this country and keep accurate business records that reflect actual transactions with, and payments to, our service providers.
- DBSA Employees must not accept or request, agree or promise to accept, money, or anything of value, or any form of gratification, either directly or indirectly, from service providers or anyone linked to them in return for a benefit or other advantage to accrue to a service provider or other linked 3rd party;
- Employees may not receive anything that is intended to:
 - In an irregular or untoward manner, influence their judgement or conduct to ensure a specific or pre-conceived desired outcome of a sourcing activity;
 - In an irregular or untoward manner, win or retain business or influence any act or decision of any person involved in sourcing decisions; or
 - Gain an improper advantage.
- There may be times when a service provider is confronted with fraudulent or corrupt behaviour of DBSA employees. We expect our Service providers to use our "Tip-offs Anonymous" Hot line to report these acts – 0800 204 933 or email dbsa@tip-offs.com.

2. DBSA is firmly committed to the concept of free and competitive enterprise.

- Service providers are expected to comply with all applicable laws and regulations regarding fair competition and antitrust practices.
- DBSA does not engage with non-value adding agents or representatives solely for the purpose of increasing BBBEE spend (fronting).

3. DBSA's relationship with service providers requires us to clearly define requirements, to exchange information and share mutual benefits.

- Generally, service providers have their own business standards and regulations. Although DBSA cannot control the actions of our service providers, we will not tolerate any illegal activities. These include, but are not limited to:
 - Misrepresentation of their product (origin of manufacture, specifications, intellectual property rights, etc.);
 - Collusion in whatever form that is intended to influence procurement decisions;

- Failure to disclose accurate information required during the sourcing activity (ownership, financial situation, BBBEE status, etc.);
- Corrupt activities listed above; and
- Harassment, intimidation, or other aggressive actions towards DBSA employees.
- Service providers will be evaluated and approved before any materials, components, products, or services are purchased from them. A rigorous due diligence is conducted, and the service provider is expected to participate in an honest and straight forward manner.
- Service providers must record and report facts accurately, honestly, and objectively. Financial records must be accurate in all material respects.

4. Conflicts of Interest

A conflict of interest arises when personal interests or activities influence (or appear to influence) the ability to act in the best interests of DBSA.

- Doing business with family members or close associates.
- Having a financial or beneficial interest in another company in our industry or environment

Where possible, contracts will be negotiated to include the above in the terms of such contracts. To the extent such terms are not included in contractual obligations and any of the above code is breached, then DBSA reserves its right to review doing business with these service providers.
