TERMS OF REFERENCE (TOR)

1. INTRODUCTION

The IPP Office is mandated to undertake the procurement of energy on behalf of the Department of Electricity and Energy (the Department). As such it is the IPP Office's responsibility to prepare procurement documentation and run the procurement processes to ultimately select and appoint successful bidders. These bidders (Independent Power Producers [IPP/s]) are responsible to construct, operate and maintain independent power plants providing much needed power to the South African grid.

2. BACKGROUND AND PURPOSE

In order to meet the requirement to procure a total of 3 000 MW of new generation electricity capacity aligned with the Integrated Resource Plan (IRP) and as set out in the Determination published by the then Minister of Mineral Resource and Energy in 2020, the IPP Office as the mandated procurer has embarked on a Gas Independent Power Producer Procurement Programme. The GIPPPP BW1 is anticipating the establishment of new gas-fired generation facilities that will utilise gas supplied via a value chain that can include amongst others imported LNG, regasification, or gas pipeline infrastructure.

The Department released the GAS IPPPP BW1 Request for Proposal (RFP) in December 2023 for 2000MW on a site agnostic basis and is currently in the process of conceptualization and developing a procurement process for a further 1000 MW dedicated to the Port of Ngqura in the Eastern Cape. In parallel, Eskom has its own gas programme to procure 3000 MW at Richards Bay. Therefore, the country has a total of 6000 MW of gas procurement to be added to the energy mix soon.

The RPF for GAS IPPPP BW1 contemplates a clarification process for registered Bidders to raise clarification questions in respect of the RFP. The Department considers such clarification questions and provides responses to the registered Bidders and, where appropriate, issues Briefing Notes to amend the RFP.

As a consequence of this process envisaged in the RFP, the Department has received clarification questions from registered Bidder and is currently considering these. As a consequence of such clarification questions, the Department has embarked on an internal review process following which, responses will be provided to the registered Bidders and if need be effect and implement any consequential updates to the RFP.

In view of the above, there is a requirement to appoint a team of Transaction Advisors to

- Review the RFP for GAS IPPPP BW1 released to market in December 2023 for the 2000MW, including all associated project agreements such as the Power Purchase Agreement (PPA) to be entered into between the Seller and the Buyer, the Implementation Agreement (IA) to be entered into with the Department, the Direct Agreements and the Independent Engineer Agreement;
- Support with the drafting and responding via briefing notes to bid clarification questions
 from the prospective bidders, including the implementation of the necessary consequential
 changes and or updates to the RFP;
- Undertake an evaluation process of the Bid Responses submitted; and
- Provide support in undertaking all activities associated with commercial and financial close including all negotiations associated with this.

The team of Transaction Advisors will consist of:

- Legal Advisors;
- Economic Development Advisors;
- Financial Advisors;
- Technical Advisors; and
- Governance experts.

The Department has also appointed a gas specialist to work closely with the team of Transaction Advisors to assist and to provide advisory services to the Department and the IPP Office on the development of the GAS IPPPP in South Africa by providing strategic guidance and expertise on all value chain elements to ensure the successful implementation of the GAS IPPPP.

GAS IPPPP BW1 RFP REVIEW

The basic criteria for the review of the GAS IPPPP BW1 RFP will be guided by the following:

- Review and update of the current RFP suite of documents in view of clarification questions received from the registered Bidders, current market developments and challenges experienced on the GAS IPPPP;
- Studies and concepts that were undertaken or are being developed by the IPP Office together with the gas specialist in respect of the GAS IPPPP must be reviewed and considered for inclusion in the RFP;
- The procurement of new gas fired generation capacity in line with the requirements of the Integrated Resource Plan 2019 ("IRP 2019") and the requirements of the System Operator for balancing of the system and delivery of capacity and energy;

- The procurement of gas fired generation capacity will be required to align and interface
 with fuel supply either as Gas or LNG importation & regasification infrastructure and gas
 supply pipeline network as well as consideration of the impact and timing of the
 establishment of grid infrastructure needed to evacuate the electricity and provide ancillary
 services from power generation facility procured in GAS IPPPP BW1;
- To achieve a Commercial Operations Date (COD) at the set timelines;
- To procure the capacity on a least cost basis at the most competitive and affordable price, and least regret basis and should not worsen NTCSA's (the Buyer) financial position or unduly increase government's contingent liability;
- To support the transition to cleaner energy sources;
- To support the just energy transition and socio-economic transformation agenda of Government to create opportunities for black industrialists and support the development of black independent power producers; and
- To facilitate investments in the energy sector, support economic growth, increase job opportunities and support local manufacturing opportunities.

Bid Evaluation, Commercial and Financial Close Activities

As in all previous IPP Programmes, the evaluation of bids will be undertaken by an external, independent team of experts representing all required disciplines with a governance expert overseeing and monitoring the evaluation process and procedures. As part of this ToR, the appointed Legal Transaction advisor will undertake evaluation as part of a team of multi-disciplinary, independent evaluators that will undertake the Evaluation of Bids, appointment of Preferred Bidders and all Commercial and Financial Close activities associated with the GAS IPPPP BW1 in response to the RFP issued. An independent review of the Evaluation outcomes will also be undertaken.

In view of the above, the team of appointed Transaction Advisers for the Evaluation will consist of:

- Legal Advisors;
- Economic Development Advisors;
- Financial Advisors:
- Technical Advisors; and
- Governance Advisors.

The basis for the evaluation(s) will be the RFP, the Evaluation Manual and accompanying Evaluation Templates.

In managing potential conflict of interest and also in lieu of the potential high number of bid responses Transactional Advisors will have to declare or manage potential conflict of interest.

The Legal Transaction Advisor must have domestic presence and have in depth understanding of the South African electricity market and possess international experience and expertise to provide advice on gas fired generation capacity and gas related matters.

Fee Proposals

In responding to this TOR, the Transaction Advisors are required to note that a separate or distinct fee proposal should be provided for all the respective functions and covering the full scope of work. No work exclusions are permitted from the Fee proposal. It should also be noted that a firm will be appointed for the review and update of the RFP, Evaluation of bids received and Commercial and Financial Close activities. The Fee proposal is a fixed price proposal.

Where conflicts may exist, the Department may consider the appointment of two teams to undertake the Evaluation and Commercial and Financial close activities. If more than one firm is selected per discipline, the Department retains the right to assign the role of coordinator and penholder to one of the teams to ensure the efficient coordination and delivery of the combined evaluation report from the advisory team.

Furthermore, there will be a need for the team to work collaboratively, as is necessary on deliverables such as the final reports.

The Fee proposal must consider that the Evaluation will be done on site in secure environment.

This Terms of Reference is being sent to open market.

Transaction Advisor must demonstrate domestic experience and have in depth understanding of

the South African electricity market in addition to possessing international experience and

the lenders.

In managing potential conflict of interest and also in lieu of a potential high number of bid

responses, the Transactional Advisors will have to declare and indicate how they will manage

potential conflict of interest.

Therefore, a firm participating in this tender should provide the Department with its policy to

manage potential conflict of interest that may arise from such firm of advisors that are advising

both the Department and Bidders. This policy should include the measures that will be put in place

and applied to manage such conflict of interest.

The Evaluation Team will have to sign Declaration of Interest and Confidentiality

Undertakings.

5. COMPETENCY AND EXPERTISE REQUIREMENTS OF RESOURCES

It is expected that the Legal Transaction Advisory team will have the following experience and

competencies:
