PART E

TERMS OF REFERENCE & PROJECT BRIEF

1. INTRODUCTION

The IPP Office is mandated to undertake the procurement of energy on behalf of the Department of Energy and Electricity (DEE), previously the Department of Mineral Resources and Energy (DEE). As such, it is the IPPO's responsibility to prepare procurement documentation and run the procurement processes to ultimately select and appoint successful bidders. These bidders (Independent Power Producers [IPPs]) are responsible to construct, operate and maintain independent power plants providing much needed power to the South African grid.

2. BACKGROUND AND PURPOSE

- 2.1 In order to meet the requirement to procure 3 000 MW of new generation electricity capacity as set out in the Determination published by the Minister of Mineral Resource and Energy in 2020, The IPPO received a mandate, following the issuance of a Ministerial Determination, to procure 3 000 MW of gas-to-power as per IRP 2019, which was split into a Gas Bid Window 1 (BW 1) with 2 000 MW capacity and Gas Bid Window 2 (BW 2) for 1 000 MW. The focus of this Terms of Reference (TOR) is BW1.
- 2.2 The Request for Proposal (RFP) for GASIPPPP BW1 for 2 000 MW on a site agnostic basis was released to the market in December 2023 with Bid Submission set for 30 August 2024. However, in July 2024, the Department approved that the Bid Submission Date of the GASIPPPP BW1 RFP be extended to 25 March 2024 in response to requests received from the market. Furthermore, the Bid submission date was extended to 31 October 2025 for the IPPO, NTCSA, Eskom, and the Department to have reasonable time to update the RFP and seek all governance approvals before sending the revised RFP to the market. The key aspects that are part are part of the RFP review process to address issues raised by the market include, among others, the following:
 - Dispatch commitments and load factors.
 - Pricing risks of the fuel.
 - Risk associated with the bidding conditions (project on project risks) in the RFP.

- General contractual risks in the PPA.
- Timelines to financial close.

- 2.3 In view of the above, there is a requirement to appoint a team of Transaction Advisers for an estimated duration of 36 months to:
- a. Review and amend the Gas BW 1 RFP under the guidance and management of the IPP Office inclusive of all associated agreements such as the PPA entered into with the Buyer, the Implementation Agreement entered into with the Department as well as the and Direct Agreements.
 - b. The Evaluation of the Bids Submitted and
 - c. All activities associated with Commercial and Financial close.

The team of Transaction Advisers will consist of:

- Legal Advisers;
- Economic Advisers;
- Financial Advisers; and
- Technical Advisers.

The Gas BW 1 IPPPP has been designed to procure the target of 2000 MW of new generation capacity (including capacity, ancillary services and energy output) to be derived from gas-fired power generation facilities developed by the IPPs on a site-agnostic basis.

2.4 The basic criteria used for the formulation of the Gas BW1 IPPPPP RFP were as follows:

- A concept note was developed and finalised together with the IPPO, DEE and key stakeholders.
- The procurement of new gas-fired generation capacity was done in line with the requirements of the IRP 2019 and to the requirements of the System Operator for balancing of the system and delivery of capacity, energy, and ancillary services. The procurement of gas-fired generation capacity would be required to align and interface with State-provided importation and regasification infrastructure and potentially gas supply.
- To procure the capacity on a least cost basis at the most competitive and affordable price, and least regret basis and should not worsen Eskom's (the Buyer) financial position or unduly increase government's contingent liability;
- To support the transition to cleaner energy sources.
- To support the just transition and socio-economic transformation agenda of Government encourage opportunities for black industrialists and support the development of black independent power producers; and
- To facilitate investments in the energy sector, support economic growth, increase job opportunities and support local manufacturing opportunities.

- 2.2 As in all IPP Programmes, the evaluation of bids is undertaken by an external, independent team of experts representing all required disciplines with a governance expert overseeing and monitoring the evaluation process and procedures. As part of this TOR a team of multi-disciplinary, independent evaluators will be selected to design and undertake the Evaluation of Bids, appointment of Preferred Bidders and all Financial Close activities associated with the Gas Programme in response to the Request for Proposals (RFPs) issued.

In view of the above, the team of appointed Transaction Advisers will also assist and support the IPP Office in the Evaluation and Financial Close processes. The team of Transaction Advisers will consist of:

- Legal Advisers;
- Economic Advisers;
- Financial Advisers;
- Technical Advisers; and
- Governance experts.

The basis for the evaluation will be the RFP, the Evaluation Manual and the accompanying Evaluation Templates as prepared by the Department.

In managing any potential conflict of interest and also in lieu of the potential high number of bid responses, the Transaction Advisors will have to declare or manage potential conflict of interest.

Transaction Advisers are required for the following three functions:

- RFP updating and
- Bid Evaluation, and
- Financial Close activities

In responding to this ToR, the Transaction Advisors are required to note that a separate or distinct fee proposal should be provided for each of the respective functions. It should also be noted that a firm will be appointed for both the Evaluation and Financial Close. Furthermore, there will be a need for the teams to collaborate on deliverables such as the final reports.

The Department retains the right to assign the role of coordinator and penholder to one of the teams to ensure the efficient coordination and delivery of the combined evaluation report from the legal advisory team.

Furthermore there will be a need for the team to work collaboratively, as is necessary on deliverables such as the final reports.
