1.2 DBSA REQUIREMENTS

1.2.1 BACKGROUND AND SCOPE

1. Introduction

The Infrastructure Delivery Division (“IDD”) is a division of DBSA, established to support government in accelerating the implementation of infrastructure programmes through the provision of project management support, in key priority sectors critical to the achievement of various national objectives for economic growth, job creation and infrastructure delivery.

The purpose of IDD is to create a centre of excellence that works with key government stakeholders to improve the speed and quality of infrastructure delivery. To this end, the division aims to be a self-financing business offering implementation support, programme management and/or programme co-ordination services in priority sectors and regions.

To contribute to sustainable livelihoods and economic growth by accelerating the delivery of quality social and economic infrastructure and promoting cost-effective, sustainable, integrated infrastructure planning and delivery.

2. Overview of DBSA Requirements

The Infrastructure Deliver Division (IDD) in executing projects uses the services of Professional Services Providers (“PSP’s”) in various disciplines and the Contractors to achieve completion of such projects. These PSP’s and Contractors are sourced from the market through open tenders in the media and government bulletin.

The challenge associated with an open tender is that despite tight criteria, the volume of responses remains very high as every business puts forward its application that has to be evaluated appropriately. The DBSA IDD has experienced high volumes of tender responses in the past and this always surpasses the available resource capacity to evaluate on time and qualitatively. The risk therefore includes the possible compromise on the quality of the bid evaluation, loss of fairness, the lengthened procurement process, delays in project initiation etc.

The DBSA through various Public Sector clients seeks to engage the services of specialised total facility management (TFM) companies to render relevant services. These services are currently being rendered through various modalities. The intention is, through this process to bring about consistency and a general standard by which TFM services are rendered. The aim is to deliver competitive advantage through reliable, controlled and efficient delivery of facilities services to meet business demand and manage client our real estate risks.

The DBSA therefore in mitigating for these risks, considers appointing a Framework of specialized Total Facilities Management firms for a period of 5 years, with an option of extending for further 1 year after expiry of the initial project period who will be used on an as-and-when required basis.

The Framework will comprise of service providers who can provide a full suite of TFM services for IDD on behalf of client departments, to improve the management of infrastructure as mandated by departments. Service requirements will be broken into two (2) sections namely Conditional Assessment Servies and TFM Services.

- **Joint Ventures are promoted and are allowed to submit tenders.**
- **Ensure each JV partners applicable documents are provided where applicable.**

4. Additional Conditions of Contract

- a.** Service Providers are required to support and develop a TFM SMME through subcontracting min. 30% of TFM Works (excluding Conditional Assessments).
- b.** All SMME's (subcontractors/ suppliers) need to be from the Local area, i.e. Province of project location and to be approved by the DBSA for use.
- c.** SMME's locality must be prioritized from the immediate locality of the project, i.e. ward/village, expanding to the local municipality, to district and then to province.
- d.** Each subcontractor must qualify for at least the points that the Service Provider qualifies for, unless the intended subcontractor is an EME that can execute the subcontract. Non-adherence hereof is a breach of contract.
- e.** The DBSA (on behalf of the public sector clients) will make available a list of current service providers who are currently contracted to sites. These service providers must be considered for use by qualifying TFM companies in the execution of its services and obligations on respective assignments / contracts awarded. Such service providers do not count as TFM SMME's for subcontracting. The Service Provider will be held accountable for services standards, hence it will be incumbent on it to apply any necessary vetting processes prior to the use of such companies.
- f.** Service Providers will be required to adhere to Local Content (as per DTIC) applicable per Task Order.

- k.** The DBSA reserves the right to approach all framework service providers for competitive process when orders need to take place where there is no justifiable reason for issuing an order to a particular framework service provider. Such an approach will not be based on the agreed Framework costs.
- l.** The DBSA reserves the right to approach the market to add new service providers to the framework, after every 12 months, subject to service provider availability per framework.
- m.** Service Providers may not request Cost Percentage increases to what was agreed and appointed.

5. Cost Evaluation, Standardisation and Recommendation Conditions

- a.** The cost-based pricing strategy allows for the assessment of compensation events (risk events which are not at the contractor's risk) based on cost as defined in the contract plus a percentage agreed at the time of contract formation which covers profit, overheads, finance charges, insurances etc.
- b.** Bidders to offer a Cost Percentage per relevant value threshold. Bidders are required to offer one Cost Percentage for Conditional Assessment and three for TFM Services, per value threshold. (*Threshold #1 %: R0-R100m/ Threshold #2 %: R101m-R300m/ Threshold #3 %: R301m and higher*).
- c.** The Conditional Assessment percentage and TFM Services percentage (*TFM Service thresholds averaged*), will be used to calculate the combined percentage.
- d.** The combined percentages per bidder will be used to calculate the combined percentages average, which will be deemed as the acceptable percentage threshold.
- e.** Any combined percentages per bidder deviating by 20% from the combined percentages average (acceptable percentage threshold), will be deemed an outlier.
- f.** The remaining bidders (post outlier exclusion) will be assessed for ranking at Stage 3 Price & Preference Evaluation
- g.** Only the top ten (10) ranked bidders at Stage 3 Price & Preference Evaluation will be shortlisted per Province. (subject to the quantity already in the Framework).

- h. The individual and combined threshold Cost Percentages will be for evaluation purposes only and in no way represents a contract amount.

- j. Tenderers with Percentage below or above the acceptable percentage will be allowed the opportunity to accept the median, where applicable.
- k. Tenderers not able to accept the median, will not be evaluated further.
- l. Bidders ranked lower than the top ten (10) shortlisting, will not be approached for selection, irrespective of whether a Province Framework realises a max. of ten (10) Service Providers or not. (subject to the quantity already in the Framework).

6. Utilisation and Rotation Principles

- a. Once registered to the Framework, Task Orders will be issued to the respective Service Provider, based on these Principles of Rotation.

- c. Task Orders will be issued in order of the first listed Service Provider downwards.
- d. Task Orders may consist of one or several service requirements.

 - The Service Provider will be offered an opportunity to represent itself and provide motivation why it should not be excluded from the framework in full and why it should be reinstated.
 - No response or unreasonable/ unjustifiable reasoning, will result in the Service Provider being terminated from the framework.
 - If a Service Provider is allocated a Task Order and states it is unable to action the service due to the agreed Percentage being too low, the Service Provider will be in breach of the conditions and be excluded from the Framework with immediate effect.
 - Any non-performing Service Provider (not to fault of the DBSA) will be issued with a Default Letter pertaining to the applicable Task Order. Receipt of two such letters irrespective of the Task Order, will result in the Service Provider being in breach of the conditions and will be placed on hold for further use from the Framework with immediate effect.
 - The Service Provider will be offered an opportunity to represent itself and provide motivation why it should not be excluded from the framework in full and why it should be reinstated.
- g. For every new project, a new Task Order will be issued to the next in order Service Provider (province specific).
- h. Once a Service Provider has been approached for services via a Task Order, irrespective of whether the required services were provided, will not be approached until all Service Providers have been approached.
- i. Allocation would be based on an equitable distribution in terms of monetary value per individual Province Framework, to ensure a fair and transparent process. This is subject to the next in order Service Providers being able to provide the service required.
- j. A separate Task Order will be applicable for Conditional Assessments and TFM Services.
- k. It is the DBSA's intention to utilise the same Service Provider for Conditional Assessments and TFM Services, as the Service Provider is required to take full ownership of each aspect.
- l. Allocation of the Conditional Assessment Task Order, does not imply or guarantee the Service Provider to be allocated the TFM Services Task Order.
- m. The DBSA reserves the right to award the scope in full or part thereof, or not at all
- n. TFM Services Task Order allocation is subject to budget and/or client acceptance.
- o. In the event of a partial award, the DBSA reserves the right for items excluded from the award, to be retendered in a new tender process.

4. THE TFM DELIVERY MODEL

TFM companies (that will be part of the DBSA Framework Panel) need to be fully aware that DBSA, as well as its clients, may have in-house staff executing some facilities management services, and/or other services (e.g. cleaning, security, gardening, etc.) could have been outsourced to an external service provider. In that regard, the appointed TFM company will be required to use commercially reasonable efforts, to integrate the performance of its TFM services, with those services provided to clients by its own staff, or external service providers, with the goal that the appointed TFM company, in-house personnel and subcontracted external service providers, offer a seamless, end-to-end service to client facilities without material disruption.

5. GENERAL CONSIDERATIONS

The TFM companies that qualify for inclusion onto the DBSA Framework Panel must note the following:

- a. Qualifying companies will be required to have the necessary insurances and compliance certification based on the nature of services prior to contracting.
- b. The inclusion onto the panel is not a guarantee of work.
- c. Work allocation will be on a project- by- project basis, subject to an instruction (mostly in the form of RFP) process and informed by the DBSA in writing.
