16. CONFLICT OF INTEREST

16.1 A Bidder must not, and must ensure that its officers, employees, agents and advisors do not place themselves in a position that may give rise to actual, potential or perceived conflict of interest between the interests of the DBSA and the Bidder's interests during the Tender Process.

16.2 The Bidder is required to provide details of any interests, relationships or clients which may or do give rise to a conflict of interest in relation to the supply of the services under any contract that may result from this RFP. If the Bidder submits its Bid and a subsequent conflict of interest arises, or is likely to arise, which was not disclosed in the Bid, the Bidder must notify the DBSA immediately in writing of that conflict.

16.3 The DBSA may immediately disqualify a Bidder from the Tendering Process if the Bidder fails to notify the DBSA of the conflict as required.

17. LATE BIDS

17.1 Bids must be delivered by the Closing Time. The Closing Time may be extended by the DBSA in its absolute discretion by providing written notice to Bidders.

17.2 Bids delivered after the Closing Time or lodged at a location or in a manner that is contrary to that specified in this RFP will be disqualified from the Tendering Process and will be ineligible for consideration. However, a late Bid may be accepted where the Bidder can clearly demonstrate (to the satisfaction of the DBSA, in its sole discretion) that late lodgement of the Bid was caused by the DBSA; that access was denied or hindered in relation to the physical tender box; or that a major/critical incident hindered the delivery of the Bid and, in all cases, that the integrity of the Tendering Process will not be compromised by accepting a Bid after the Closing Time.

17.3 The determination of the DBSA as to the actual time that a Bid is lodged is final. Subject to clause 17.2, all Bids lodged after the Closing Time will be recorded by the DBSA and will only be opened for the purposes of identifying a business name and address of the Bidder. The DBSA will inform a Bidder whose Bid was lodged after the Closing Time of its ineligibility for consideration. The general operating practice is for the late Bid to be returned within 5 (five) working days of receipt or within 5 (five) working days after determination not to accept a late Bid.

18. BIDDER'S RESPONSIBILITIES

The submission of such certificates must comply with the requirements of instructions and guidelines issued by National Treasury and be in accordance with the applicable notices published by the Department of Trade and Industry in the Government Gazette.

18.4 The DBSA reserves the right to require of a Bidder, either before a Bid is adjudicated or at any time subsequently, to substantiate any claim in regard to preferences, in any manner required by the DBSA.

- 19.4 Where the Bidder is unwilling to accept a specified condition, the non-acceptance must be clearly and expressly stated. Prominence must be given to the statement detailing the non-acceptance. It is not sufficient that the statement appears only as part of an attachment to the Bid or be included in a general statement of the Bidders usual operating conditions.
- 19.5 An incomplete Bid may be disqualified or assessed solely on the information completed or received with the Bid.

20. ILLEGIBLE CONTENT, ALTERATION AND ERASURES

- 20.1 Incomplete Bids may be disqualified or evaluated solely on information contained in the Bid.
- 20.2 The DBSA may disregard any content in a Tender that is illegible and will be under no obligation whatsoever to seek clarification from the Bidder.
- 20.3 The DBSA may permit a Bidder to correct an unintentional error in its Bid where that error becomes known or apparent after the Closing Time, but in no event will any correction be permitted if the DBSA reasonably considers that the correction would materially alter the substance of the Bid or effect the fairness of the Tendering Process.

21. OBLIGATION TO NOTIFY ERRORS

If, after a Bidder's Response has been submitted, the Bidder becomes aware of an error in the Bidders Response (including an error in pricing but excluding clerical errors which would have no bearing on the evaluation of the Bid), the Bidder must promptly notify the DBSA of such error.

22. RESPONSIBILITY FOR BIDDING COSTS

- 22.1 The Bidders participation or involvement in any stage of the Tendering Process is at the Bidders sole risk, cost and expense. The DBSA will not be held responsible for, or pay for, any expense or loss that may be incurred by Bidders in relation to the preparation or lodgement of their Bid.

TERMS OF REFERENCE (TOR)

**LEGAL ADVISORY, STAKEHOLDER ENGAGEMENT, AND IMPLEMENTATION
SUPPORT FOR THE NATIONAL IPP LEGACY FACILITY (NILF)**

1. PURPOSE

To appoint a Service Provider:

- a) To provide an independent legal opinion on the lawfulness, feasibility, and compliance of the National IPP Legacy Facility (NILF);
- b) To lead and structure legal engagements with key stakeholders, including National Treasury (NT), Development Bank of Southern Africa (DBSA), and Independent Power Producers (IPPs); and
- c) To provide legal implementation support to translate the approved concept into compliant governance, contractual, and operational arrangements.

2. BACKGROUND

The Independent Power Producer Office (IPPO) was established in 2010 in terms of a Memorandum of Agreement (MoA) between the Department of Electricity and Energy (DEE), NT and the DBSA, to implement the Independent Power Producer Procurement Programme (IPPPP). The IPP Office is not juristic entity and has been operating under the MoA arrangement for 15 years.

The current mandate of the IPP Office extends to specialised services to government in respect of:

- Energy Procurement Management; and
- Monitoring, Evaluation and Contract Management

Its mandate is derived from Ministerial Determinations issued in line with the Energy Regulation Act (ERA) and New Generation Capacity Regulations (NewGenRegs) and informed by the county's Integrated Resource Plan (IRP), which is updated from time to time.

The IPPO has developed a concept proposal for the establishment of the National IPP Legacy Facility (NILF).

Under the IPP Programme, IPPs are contractually obligated to allocate portions of their project revenue to support development initiatives in communities located within a 50km radius of their project sites, or as in the latest bid rounds, within their district municipality. These contributions are deployed directly by IPPs through their own development arms, which most of the IPPs have had to set-up and is not their core business or strengths. While the system ensures compliance and localisation, the project-level implementation model has led to considerable variability in outcomes, both in terms of development impact and community satisfaction with disappointing results.

Over more than a decade of implementation of the Programme with 13 rounds of IPP projects, critical challenges have emerged:

- **Fragmented Impact:** Enterprise Development (ED) and Socio-Economic Development (SED) initiatives are small-scale, unsustainable largely short term in effect, lack coordination, and often fail to achieve systemic transformation within communities as was originally envisioned in the design of the IPP Programme.
- **Governance Shortcomings:** Inconsistent capacity capabilities and commitment among IPPs leads to weak planning, irregular reporting, and fund mismanagement.
- **Community Tensions:** Disputes over utilisation of funds between the IPPs and the communities have caused reputational damage and community unrest, undermining the Programme's integrity.
- **Minimal sustainability and Legacy Value:** Few projects produce sustainable benefits beyond the life of the IPP projects.
- **Duplication and Inefficiency:** Duplication of efforts in the same geographical areas waste resources and undermine coherence.

To address these shortcomings, there is a need for a DEE led, national-level, professionally governed facility capable of consolidating these funds and applying them through a strategic lens, one that is outcome-driven, well-governed, and developmentally aligned.

The NILF is envisaged as a centralised, professionally governed development finance platform, to be hosted and administered by a Development Finance Institute (DFI), and ED and SED contributions contractually committed by IPPs under the Renewable Energy Independent Power Producer Procurement Programme (REIPPPP).

Given the material public finance, procurement, governance, and contractual implications, The IPPO requires legal advisory services that extend beyond a static legal opinion, to include:

- Structured engagement with key stakeholders; and
- Ongoing legal support through the design and early implementation of the NILF.

3. SCOPE OF WORK

The scope of work is structured across three interrelated phases, which may overlap.

Phase 1 - LEGAL OPINION AND FEASIBILITY ASSESSMENT

- Development finance institution–hosted funds;
- Pooled infrastructure, climate, or socio-economic development funds;
- Funds receiving ring-fenced private or quasi-public contributions;
- Public entities operating under PFMA exemptions or tailored Treasury approvals.

- Legal form and hosting arrangements;
- PFMA treatment and Treasury approvals/exemptions;
- Governance and decision-making models;
- Fund-flow and ring-fencing mechanisms;
- Procurement and project selection approaches;
- Oversight, audit, and accountability frameworks.

The analysis will identify **precedents, lessons learned, and defensible structuring options** relevant to the NILF.

- DBSA-managed funds and facilities;
- Existing ED/SED implementation platforms;

- Platform alignment or integration options;
- Safeguards to protect existing programmes;
