

Item No	Heading	Question Details	Response
1	Parking	For the parking shelters, do you need the cantilever, or the 4 post poles pole structure?	Four Post pole structure, refer to the attached parking drawings.
2	Carpots and Net Colour	Do you have any specification on the color of the materials such as the color of the steel, the sheeting, and the nets?	The colour of the material will be grey for post and nets will be subject to client approval. Final colour is subject to client's approval
3	Steel Finish	We would like to advice that we do galvanize as the Power coating doesn't last long.	The steelwork will be powder coated as specified in the Bills of Quantities. The coating process shall include appropriate surface preparation and the application of a high-performance powder coating finish to provide adequate protection against corrosion and environmental conditions. All materials, workmanship, and finishes shall comply with the project specifications and applicable standards.
