APPOINTMENT OF A SERVICE PROVIDER TO DEVELOP PHASE 2 OF THE DBSA DLAB PROGRAMME SOCIAL RETURN ON INVESTMENT FRAMEWORK AND ASSESS THE SOCIAL RETURN OF DLAB SITES.

1. PURPOSE

This document sets out the Terms of Reference (“ToR”) for the appointment of a qualified and experienced consultant develop phase 2 of the DBSA DLAB Programme social return on investment framework and assess the social return of five (5) identified DLAB sites. This body of work will support the DBSA DLAB Programme in strengthening evidence-based planning, investment prioritisation and decision-making in the implementation of future DLAB sites.

2. INTRODUCTION

The Development Bank of Southern Africa’s (DBSA) vision is to build a prosperous, integrated, and resource-efficient region that is progressively free from poverty and dependency. This is achieved through expanding access to development finance and implementing sustainable development solutions. The DBSA is committed to responding to South Africa’s vulnerabilities by implementing the DBSA DLAB Programme- a South African innovative approach to addressing socio-economic challenges faced by South Africa’s most under-served communities and to break the intergenerational cycle of poverty, inequality and unemployment caused by the systematic exclusion from access to meaningful opportunities for the majority of South Africans.

As the DLAB Programme scales and matures, it is important to quantify and monetise the social value created. The Programme’s Social Return on Investment (SROI) Framework provides a structured approach to assessing and demonstrating the social value generated through these interventions. In recognition of the significance of this work, the DBSA invites suitably qualified consultants to submit proposals that build on and strengthen the existing SROI Framework, enabling a robust assessment of the Programme’s evolving developmental impact.

3. DBSA DLAB PROGRAMME BACKGROUND AND CONTEXT

3.1. The DBSA DLAB Programme Overview

The DLAB Programme is a South African approach to provide meaningful access to opportunity pathways and the delivery of economic activities for youth, through empowering and catalysing community-based economic development and large-scale sustainable development in a manner that is inclusive. The goal is to unlock the potential of human creativity and innovation, as well as invest in the partnerships that make an impact livelihood.

The evolution of the DLAB Programme has been anchored on the idea that social infrastructure will significantly alleviate socio-economic challenges at a community level. Within the context of

the Programme, a DLAB is that of a community-based common space that stimulates and catalyses sustainable economic activity inflows and capacitate youth to increase their potential for employment and with broader economic access. The delivery on the vision is through the construction of the physical DLAB social infrastructure, where programme services are run, access to opportunity pathways and benefit from economic activities, as well as social upliftment. The Programme creates pivotal linkages between a vast network of key partners to implement, operate and facilitate this over the lifetime of DLABs.

The DLAB Site Programme currently has a geographical footprint of nine (9) DLAB sites across seven (7) provinces in metropolitans, peri-urban and rural municipalities. Each of the sites encompass their own set of uniquely tailored value add through programme offerings and local economic activities.

3.2. DBSA DLAB Programme Social Return of Investments

In 2023, the DBSA DLAB Programme developed a comprehensive DLAB Programme tailored SROI Framework as well as the SROI values for two (2) DLAB sites. The Framework was developed using core strategic development pillars and DLAB site specific data. Given that investments across the DLAB portfolio comprise a combination of infrastructure and operational expenditure, each DLAB site required a tailored approach to conduct the SROI analysis.

This initial body of work constitutes Phase 1 of the DLAB Programme SROI Framework, as the Programme begins to expand the overall Framework and assess the social value of all additional DLAB sites, in a phase manner.

As the DLAB Programme has matured and begins to scale, with additional DLAB site becoming operational and the development pillars evolving, this presents a need for the DLAB Programme SROI Framework to be expanded and elevated. Within this context, the DBSA seeks to appoint a qualified and experienced consultant to develop Phase 2 of the DBSA DLAB Programme SROI Framework. The appointed consultant will also be required to measure and evaluate the social value for five (5) DLAB sites in Jabulani (Johannesburg, Gauteng Province), Westridge (Western Cape Province), Alexandra (Johannesburg, Gauteng Province), Louwsburg (Kwa-Zulu Natal Province) and Waterberg (Limpopo Province). This must be undertaken in accordance with the agreed methodology, implementation schedule, reporting requirement and timelines. The outputs will support the DBSA DLAB Programme in strengthening evidence-based planning, investment prioritisation and decision-making in the implementation of future DLAB sites. The SROI Framework will also support DBSA's organisational and strategic goals to contribute towards developmental outcomes through its activities and investments.
