Clarification and responses - Panel of Economic Development (ED) advisors for the IPP Office (IPPO) for a period of 5 (five) years to provide ED advisory support to the IPPO in conceptualising, designing and drafting the Request for Qualification (RFQ) and Proposals (RFP), evaluating bids received, undertaking all activities associated with Commercial and Financial Close, as well as any other ED advisory services required by the IPP Office.

Clarification	Response
The Part C checklist identifies "Part E: Specifications/Terms of Reference and Project Brief" as a compulsory returnable. The RFP contains the Terms of Reference on pages 31–47, but this section is not expressly labelled "Part E" and no separate Part E returnable form is provided. Please confirm whether pages 31–47 constitute Part E and whether bidders must submit a separate completed or signed Part E document or simply include their technical response to the Terms of Reference.	Terms of Reference on pages 31–47 is Part E, bidders simply include their technical response to the Terms of Reference and functional evaluation criteria indicated
We acknowledge receipt of "Appendix A: Standard CV Template," which provides the prescribed resource information, employment history, and project-experience template, including fields for up to five key projects and contactable references. The Part C checklist separately identifies "Annexure A: Price Proposal Requirement" and requires a separate Price / Financial Proposal folder; however, no price-proposal template or pricing instructions appear in the RFP or the Appendix A received. Page 25 also states that there will be no Price and Preference Evaluation. Please confirm: (1) whether a separate financial proposal is required at this panel-appointment stage; (2) if required, the pricing basis and information bidders must submit; and (3) whether DBSA will issue a prescribed price-proposal template.	No pricing is applicable for this tender; thus bidders will not be expected to submit pricing for this tender
When bidding as a consortium with multiple companies is it a requirement that only the LEAD company submit the relevant compliance documents such as * CK documents * BBBee Certificates * Tax PIN * CSD	It required that ALL companies in the consortium that are required to submit the relevant compliance documents

OR Is it required that ALL companies in the consortium that are required to submit the relevant compliance documents
